

Retirement Planning

The 30s Checklist

Retirement is a journey not a destination. How you live today and the decisions you make every day throughout your life will impact your ability to enjoy the retirement you envision. The important challenge, of course, is to balance enjoying your life today while simultaneously preparing for your future. One of the best ways to accomplish this is to create and follow a financial plan targeting the retirement you want to live. Financial advisors are skilled in helping you to create and manage a plan tailored to your unique goals and finances.

DEVELOPING YOUR RETIREMENT PLAN

The retirement planning process generally begins with a discussion with your advisor of how you envision your retirement. That vision will have financial requirements which become the target you and your advisor will work toward achieving. Your advisor will help you develop a holistic plan that addresses and balances the four interconnected financial behaviors of Earning, Spending, Investing and Insuring. Your advisor can help you put a custom plan into action and help you manage the plan as your life events and life goals evolve over time.

WHEN TO START

Today! It is never too soon and it is never too late.

TAKE ACTION!

Use the following Checklist to help identify important considerations when developing your retirement income plan and revising your plan through the years.

Not FDIC-Insured. Not Bank-Guaranteed. May Lose Value.

The 30s

EARNING

- Actively manage your career to advance, earn more, and enjoy your work.
- Apply raises and bonuses directly to investments as a painless way to increase retirement savings.
- After maxing out employer plan contributions, invest additional earnings in tax-favored Traditional and Roth IRAs. Protect earnings with disability insurance and health insurance.
- Reassess the targeted retirement outcome, and recalibrate contributions to retirement plans and other long-term investments.
- Protect current and future earnings through health insurance, long-term disability insurance and life Insurance.

SPENDING

- Consider buying a house instead of renting to build home equity and help lock in future costs of housing at today's levels.
- Maintain your saving/investing discipline of paying yourself first, and then use the remaining income to meet expenses.

INVESTING

- Family expenses may compete for investible dollars. Find a healthy balance of applying income to spending, insurance, and continued investing.
- Make sure contributions to the employer's retirement plan are maximized, and then start investing in IRAs and 529 plans (if intending to raise children). It may also be time to invest through a brokerage account and other vehicles.
- Retirement is still a long way off, which may allow for a relatively aggressive approach to asset allocation.

INSURING

- Health, auto, homeowner's and/or renter's insurance remain necessary.
- Individuals starting or supporting a family need life insurance. Term insurance costs less than permanent (whole or universal) insurance, but permanent insurance has long-term benefits worthy of consideration.
- This is also the age to consider disability insurance.

This information is general in nature and not intended to constitute tax, insurance or estate-planning advice. Please consult your tax, insurance or estate-planning advisor for more detailed information on these issues and advice on your specific situation.

BNY Mellon Retirement personnel act as licensed representatives of MBSC Securities Corporation (a registered broker-dealer) to offer securities, and act as officers of The Bank of New York Mellon (a New York chartered bank) to offer bank-maintained collective investment funds as well as to offer separate accounts managed by BNY Mellon Investment Management firms. This material is not intended as an offer to sell or a solicitation of an offer to buy any security, and it is not provided as a sales or advertising communication and does not constitute investment advice. MBSC Securities Corporation, a registered broker-dealer, FINRA member and wholly owned subsidiary of The Bank of New York Mellon Corporation, has entered into agreements to offer securities in the U.S. on behalf of certain BNY Mellon Investment Management firms and as distributor of the above mutual funds.
