## Goal/Approach

The fund seeks as high a level of current income, exempt from federal and California state income taxes, as is consistent with the preservation of capital. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in municipal bonds that provide income exempt from federal and California state income taxes. The fund also seeks to provide income exempt from the federal alternative minimum tax. Municipal bonds are debt securities or other obligations issued by states, territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, or multistate agencies and authorities, and certain other specified securities.

## Growth of a \$10,000 Investment

A hypothetical \$10,000 investment in the fund's Class A shares on 7/26/83 would have been worth \$69,682 on 9/30/23.

This does not reflect the 4.50% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.
