## Historical Performance (Class I @ NAV)

<sup>†</sup>Gross expenses is the total annual operating expense ratio for the fund, before any fee waivers or expense reimbursements. <sup>††</sup>Net Expenses is the total annual operating expense ratio for the fund, after any applicable fee waivers or expense reimbursements. The net expense ratio(s) reflect a contractual expense reduction agreement through 6/30/2024, without which, the returns would have been lower. The Net Expenses is the actual fund expense ratio applicable to investors. Not all classes of shares may be available to all investors or through all broker-dealer platforms.

**Class Z shares generally are not available for new accounts. Please see the fund's prospectus for details.**

<sup>1</sup>The total return performance figures for Class A and Class Y shares of the fund represent the performance of the fund's Class Z shares for periods prior to 9/30/08, and 7/1/13, the inception dates for Class A and Class Y shares, respectively, and the performance of Class A and Y, respectively, from those inception dates. Performance reflects the applicable class's sales load and distribution/servicing fees since the inception date. Had these fees and expenses been reflected for periods prior, performance would have been lower. Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. <sup>2</sup>Source: FactSet. The **Russell 1000<sup>®</sup> Growth Index** measures the performance of the large-cap growth segment of the U.S. equity universe.
