Class A **DMBAX** Class D **DSIBX** Class I **DIMIX** Class Y **DMYBX**

Goal/Approach

The fund seeks to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. Effective June 30, 2022, the fund invests principally in municipal bonds with remaining maturities of five years or less and generally maintains a dollar-weighted average portfolio maturity of one to three years. The fund invests at least 80% of its net assets in municipal bonds rated investment grade (Baa/BBB or higher) at the time of purchase or the unrated equivalent as determined by the fund's sub-adviser. For additional yield, the fund may invest up to 20% of its assets in municipal bonds rated, at the time of purchase, below investment grade ("high yield" or "junk" bonds) to as low as Caa/CCC or the unrated equivalent as determined by the fund's sub-adviser.

Prior to June 30, 2022, the fund sought to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital. Accordingly, the fund normally invested substantially all of its net assets in municipal bonds that provided income exempt from federal personal income tax. The fund invested only in municipal bonds rated investment grade. The fund invested primarily in municipal bonds with remaining maturities of five years or less and generally maintained a dollar-weighted average portfolio maturity of two to three years.

Growth of a \$10,000 Investment

A hypothetical \$10,000 investment in the fund's Class A shares on 4/30/87 would have been worth \$29,330 on 9/30/22.

This does not reflect the 2.50% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate, and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Performance for periods less than 1 year is not annualized. Go to im.bnymellon.com for the fund's most recent month-end returns. The net expense ratio(s) reflect a contractual expense reduction agreement through 8/1/2023, without which, the returns would have been lower. Total Expense Ratios: Class A 0.62%, Class D 0.48%, Class I 0.42%, Class Y 0.70%. Net Expense Ratios: Class A 0.62%, Class D 0.48%, Class I 0.39%, Class Y 0.39%. SEC 30-day yields reflect undertaking in effect, without which the Fund's SEC 30-day yield for Class A, Class D, Class I and Class Y shares would have been 2.18%, 2.39%, 2.44% and 1.98%, respectively, as of 9/30/2022. Not all classes of shares may be available to all investors or through all broker-dealer platforms.

¹The total return performance figures for Class Y shares of the fund represent the performance of the fund's Class D shares for periods prior to 7/1/13, the inception date for Class Y shares and the performance of Class Y from that inception date. Performance reflects the applicable class's sales load and distribution/servicing fees since the inception date. Had these fees and expenses been reflected for periods prior, performance would have been lower. Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. ²Portfolio composition is as of 9/30/2022 and is subject to change at any time. ³Average Effective Maturity is the weighted average of the effective maturity dates of the fixed-income securities in the fund's holdings. ⁴Modified Duration to Worst — Yield change calculated to the priced to worst date, including all call features. ⁵Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁶Source: FactSet. ¹Portfolio composition is as of 9/30/2022 and is subject to change at any time. ²Bond ratings reflect the rating entity's evaluation of the issuer's ability to pay interest and repay principal on the bond on a timely basis. Bonds rated BBB/Baa or higher are considered investment grade, while bonds rated BB/Ba or lower are considered speculative as to the timely payment of interest and principal. ³Credit ratings reflect only those assigned by S&P, Moody's, and/or Fitch. Split-rated securities if any, are reported in the higher rating category. ⁴Source: Insight Investment.

Risks: Bonds are subject generally to interest-rate, credit, liquidity, call and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes and rate increases can cause price declines. The fund is **non-diversified**, which means the fund may invest in a relatively high percentage of its assets in a limited number of issuers. Performance may be more vulnerable to changes in the market of a single issuer. **Municipal income** may be subject to state and local taxes. Capital gains, if any, are taxable. **High yield bonds** involve increased credit and liquidity risk than higher-rated bonds and are considered speculative in terms of the issuer's ability to pay interest and repay principal on a timely basis. *Recent market risks include pandemic risks related to COVID-19. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.*
