---

1. As a measure of current income, 7-day yield most closely reflects the fund’s current income-generating ability.
2. Portfolio composition is subject to change at any time.
3. Please see the prospectus for expenses as of the fund’s most recent fiscal year-end. Operating expenses may vary from month to month.
4. Any order in proper form placed with Dreyfus by the fund’s trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.
5. Data reflects days until final maturity for individual portfolio securities.
6. WAL is the average maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument, and taking into account applicable “maturity shortening” provisions provided by Rule 2a-7. Generally, for money market funds, WAL can be used primarily as a measure of relative sensitivity to interest rate changes.
7. WAL is the average of the yield at which the fund may enter into interest rate agreements, and which is subject to change at any time.
8. Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (IF ANY) distributed during the period, and annualized based upon the number of days in the distribution period.

General Government Securities Money Market Fund – Dreyfus Class

Fund Goal
The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

Investment Approach
The fund is a "government money market fund," as that term is defined in Rule 2a-7, and as such is required to invest at least 99.5% of its total assets in securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities, repurchase agreements collateralized solely by cash and/or government securities, and cash. The fund normally invests at least 80% of its net assets in government securities and repurchase agreements collateralized solely by government securities (i.e., under normal circumstances, the fund will not invest more than 20% of its net assets in cash and/or repurchase agreements collateralized by cash). The securities in which the fund invests include those backed by the full faith and credit of the U.S. government, which include U.S. Treasury securities as well as securities issued by certain agencies of the U.S. government, and those that are neither insured nor guaranteed by the U.S. government.
