- 68.83%: 181+ Days

¹As a measure of current income, 7-day yield most closely reflects the fund’s current income-generating ability.
²The yields quoted may reflect the current absorption of certain fund expenses by Dreyfus, without which yields would be “restated” as shown above.
³Portfolio composition is subject to change at any time.
⁴Please see the prospectus for expenses as of the fund’s most recent fiscal year-end. Operating expenses may vary from month to month.
⁵Any order in proper form placed with Dreyfus by the fund’s trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.
⁶Data reflects days until final maturity for individual portfolio securities.
⁷WAM is a measure of the average maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument, and taking into account applicable “maturity shortening” provisions provided by Rule 2a-7. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.
⁸WAL is the WAM of the money market fund calculated without reference to the “maturity shortening” provisions of Rule 2a-7 permitted for purposes of calculating WAM. Because WAL does not reflect the rule’s “maturity shortening” provisions, WAL will generally be higher than WAM.
⁹Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (IF ANY) distributed during the period, and annualized based upon the number of days in the distribution period.

**Fund Goal**
The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

**Investment Approach**
The fund is required to invest at least 99.5% of its total assets in securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities, repurchase agreements collateralized solely by cash and/or government securities, and cash.

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund’s sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Dividends, if any, are payable pursuant to the fund’s stated policy.

*Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell or hold the shares of a fund and are subject to change. The portfolio's credit quality does not remove market risks. Standard & Poor’s (S&P) believes that, with a Principal Stability Rating of AAAm, the fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology, visit www.standardandpoors.com. Moody’s Investors Service rates money market mutual funds ‘Aaa-mf’ if, in Moody’s opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody's assessment of a fund's Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology, visit www.moodys.com.
