2009	31.72%	40.48%
2008	-40.46%	-41.46%

Part of the fund's recent performance is attributable to positive returns from its initial public offering (IPO) investments. There can be no guarantee that IPOs will have or continue to have a positive effect on the fund's performance.

<sup>1</sup> Portfolio composition is as of 6/30/18 and is subject to change at any time.

<sup>2</sup> The "Investment Style Classification" graphically depicts the fund's investment strategy as described in its prospectus. The horizontal and vertical axes describe the fund's investment style and market capitalization range for stocks in the fund's portfolio, respectively. The graphic supports asset allocation decisions and does not depict actual fund holdings at a point in time.

<sup>3</sup> Source: Morningstar: Reflects reinvestment of dividends and, where applicable, capital gain distributions. The Russell Midcap Index is an unmanaged index designed to measure the performance of the mid cap segment of the U.S. stock market. Investors cannot invest directly in any index.

Not FDIC-Insured. Not Bank-Guaranteed. May Lose Value.

# BNY MELLON MID CAP MULTI-STRATEGY FUND – INVESTOR SHARES

## Goal/Approach

The fund seeks capital appreciation.

The fund's investment strategy provides exposure to various mid cap equity portfolio managers, investment strategies and styles. The fund's investment adviser has allocated the fund's assets among multiple investment strategies employed by the fund's investment adviser and unaffiliated sub-investment advisers known as Boston Partners Global Investors Inc. (Boston Partners), a wholly-owned subsidiary of ORIX Corporation, and Geneva Capital Management LLC (Geneva). To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of mid cap companies. The fund currently considers mid cap companies to be those companies with market capitalizations that are within the market capitalization range of companies comprising the Russell Midcap<sup>®</sup> Index, the fund's primary benchmark index. The fund may invest up to 15% of its assets in the equity securities of foreign issuers, including those in emerging market countries. The fund is designed to provide exposure to various mid cap portfolio managers, investment strategies and styles. The fund may purchase securities of companies in initial public offerings (IPOs) or shortly thereafter. The fund may also invest in publicly-traded real estate investment trusts and exchange-traded funds and similarly structured pooled investments. The fund's investment adviser determines the investment strategies and sets the target allocations and ranges. Allocations, which may be changed without shareholder approval or prior notice, include the following underlying strategies:

1. Mid Cap Tax-Sensitive Core Strategy (Target: 30%; Range: 0% to 50%). This

strategy's portfolio manager seeks to actively and opportunistically realize capital gains and/or losses as determined to be appropriate to improve the tax-sensitivity of the portfolio's investment performance.

Thomas Murphy, the director of tax-managed equity at BNY Mellon Wealth Management and an employee of The Dreyfus Corporation (Dreyfus), is the primary portfolio manager of the strategy.

2. Opportunistic Mid Cap Value Strategy (Target: 17%; Range: 0% to 30%). This strategy's portfolio manager uses an opportunistic value approach to identify stocks whose current market prices trade at a large discount to their intrinsic value. The strategy is managed by a team of portfolio managers employed by Dreyfus and The Boston Company Asset Management, LLC (BNYM AMNA).

3. Mid Cap Growth Strategy (Target: 20%; Range: 0% to 30%). In constructing this portion of the fund's portfolio, the portfolio managers use a "growth style" of investing, searching for companies whose fundamental strengths suggest the potential to provide superior earnings growth over time. Todd W. Wakefield, CFA and Robert C. Zeuthen, CFA, and John R. Porter since March 2017, employees of both BNYM AMNA and Dreyfus, are the strategy's portfolio managers.

4. Boston Partners Mid Cap Value Strategy (Target: 16%; Range 0% to 30%). The portion of the fund's assets allocated to this strategy normally is invested in a diversified portfolio of mid cap stocks identified as having value characteristics. Joseph F. Feeney, Jr., CFA and Steven L. Pollack, CFA are the strategy's portfolio managers.

5. Geneva Mid Cap Growth Strategy (Target: 17%; Range 0% to 30%). A mid cap growth strategy. William A. Priebe, CFA, Amy S. Croen, CFA, José Muñoz, CFA and William

Scott Priebe are the strategy's portfolio managers.

The fund is permitted to use a "multi-manager" arrangement whereby the fund's investment adviser may select one or more sub-investment advisers to manage distinct segments of the fund's portfolio without obtaining shareholder approval.

## Portfolio Management

The investment adviser for the fund is BNY Mellon Fund Advisers, a division of The Dreyfus Corporation.

Caroline Lee Tsao has been the fund's primary portfolio manager responsible for investment allocation since December 2015. She is a senior investment strategist for BNY Mellon Wealth Management and manages the fund as an employee of The Dreyfus Corporation. Ms. Lee Tsao has been employed by The Bank of New York Mellon since August 2013. She has also been employed by Dreyfus since December 2015.

## Certain Risks

Equity funds are subject generally to market, market sector, market liquidity, issuer, and investment style risks, among other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

Midsized companies carry additional risks because their operating histories tend to be more limited, their earnings and revenues less predictable, and their share prices more volatile than those of larger, more established companies. The shares of smaller companies tend to trade less frequently than those of larger, more established companies.

Please refer to the prospectus for a more complete discussion of the fund's main risks.

**Investors should consider the investment objectives, risks, charges, and expenses of the fund carefully before investing. Contact your financial advisor to obtain a prospectus, or a summary prospectus, if available, that contains this and other information about the fund, and read it carefully before investing.**
