Effective on January 31, 2018, The Boston Company Asset Management LLC (TBCAM) and Standish Mellon Asset Management Company LLC (Standish) merged into Mellon Capital Management Corporation (Mellon Capital), which immediately changed its name to BNY Mellon Asset Management North America Corporation.

Growth of a \$10,000 Investment¹

A hypothetical \$10,000 investment in the fund's Class A shares on 2/4/72 would have been worth \$648,356 on 6/30/18.

This does not reflect the 5.75% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Funds with less than 1 year's history, year-to-date and 3 month performance are not annualized. Go to Dreyfus.com for the fund's most recent month-end returns. The net expense ratio(s) reflect a contractual expense reduction agreement through 06/30/2019. Total Expense Ratios: Class A 1.14%, Class C 1.88%, Class I 0.86%, Class Z 0.86%. Net Expense Ratios: Class A 1.03%, Class C 1.78%, Class I 0.78%, Class Z 0.82%.

Class Z shares are closed to new investment accounts. Class Z shares are generally offered only to shareholders of the fund who have continuously held fund shares since the date the fund's shares were classified as Z shares. ¹The total return performance figures presented for Class A, Class C and Class I shares of the fund represent the performance of the fund's Class Z shares for periods prior to 9/30/08, the inception date for Class A, Class C and Class I shares, and the performance of Class A, C and I, respectively, from that inception date. Performance reflects the applicable class' sales load and distribution/servicing fees since the inception date. Had these fees and expenses been reflected for periods prior, performance would have been lower. Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. ²Portfolio composition is as of 6/30/18 and is subject to change at any time. ³Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁴Source: FactSet. The Russell 1000 Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000 companies with higher growth earning potential as defined by Russell's leading style methodology. The Russell 1000 Growth Index is constructed to provide a comprehensive and unbiased barometer for the large-cap growth segment. The index is completely reconstituted annually to ensure new and growing equities are included and that the represented companies continue to reflect growth characteristics. Investors cannot invest directly in any index.

ASSET ALLOCATION (%)¹

GOAL/APPROACH

The fund seeks long-term capital growth consistent with the preservation of capital. Current income is a secondary goal. To pursue these goals, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in common stocks. The fund may invest up to 25% of its assets in foreign securities. The fund's stock investments may include common stocks, preferred stocks and convertible securities.

PORTFOLIO MANAGEMENT

The fund's investment adviser is The Dreyfus Corporation (Dreyfus). Investment decisions for the fund are made by members of the core research team of BNY Mellon Asset Management North America Corporation, an affiliate of Dreyfus. The team members primarily responsible for managing the fund are Elizabeth Slover, David Sealy and Barry Mills. Ms. Slover has been a portfolio manager of the fund since June 2005. She is a managing director at BNY Mellon Asset Management North America Corporation, and is the director of BNY Mellon Asset Management North America Corporation's core research team. Messrs. Sealy and Mills have been portfolio managers of the fund since September 2008. They are analysts on the core research team of BNY Mellon Asset Management North America Corporation. Each primary portfolio manager is also an employee of Dreyfus. BNY Mellon Asset Management North America Corporation investment professionals manage Dreyfus-managed funds pursuant to a dual-employee arrangement, under Dreyfus' supervision, and apply their firm's proprietary investment process in managing the funds.

Main Risks

Equities are subject to market, market sector, market liquidity, issuer, and investment style risks, to varying degrees. Investing in **foreign denominated and/or domiciled securities** involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries. A significant overweight or underweight of companies, industries, or market sectors could cause performance to be more or less sensitive to developments affecting those sectors. **Diversification** cannot assure a profit or protect against loss.
