Current Yields as of 4/30/19

- 7-day yield: 2.08%
- 7-day yield restated: 2.05%
- SEC 30-day yield: 2.05%

The performance data quoted represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance quoted. Go to dreyfus.com for the fund’s most recent monthly returns. For current performance, go to dreyfus.com. Yield fluctuates. The SEC 30-day yield is based upon dividends per share from net investment income during the past 30 days, divided by the period ended maximum offering price per share and annualized.

Final Maturity

- 1 Day: 86.37%
- 2-7 Days: 3.94%
- 8-30 Days: 0.00%
- 31-90 Days: 3.66%
- 91-180 Days: 6.04%
- 181+ Days: 0.00%

1As a measure of current income, 7-day yield more closely reflects the fund’s current income-generating ability than the total return.
2The yields quoted reflect the current absorption of certain fund expenses by Dreyfus, without which yields would be “restated” as shown above.
3Portfolio composition is subject to change at any time.
4Please see the prospectus for expenses as of the fund’s most recent fiscal year-end. Operating expenses may vary from month to month.
5Any order in proper form placed with Dreyfus by the fund’s trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.
6Data reflects days until final maturity for individual portfolio securities.
7WAM is a measure of the average maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument, and taking into account applicable “maturity shortening” provisions provided by Rule 2a-7. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.
8WAL is the WAM of the money market fund calculated without reference to the “maturity shortening” provisions of Rule 2a-7 permitted for purposes of calculating WAM. Because WAL does not reflect the rule’s “maturity shortening” provisions, WAL will generally be higher than WAM.
9Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (if any) distributed during the period, and annualized based upon the number of days in the distribution period.
**Fund Goal**

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

**Investment Approach**

The fund is required to invest at least 99.5% of its total assets in securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities, repurchase agreements collateralized solely by cash and/or government securities, and cash.

Effective on or about June 3, 2019, The Dreyfus Corporation will be renamed BNY Mellon Investment Adviser Inc., BNY Mellon Cash Investment Strategies will be renamed Dreyfus Cash Investment Strategies, and MBSC Securities Corporation will be renamed BNY Mellon Securities Corporation.

Dividends, if any, are payable pursuant to the fund’s stated policy.

1 Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell, or hold the shares of a fund and are subject to change. All funds are formally assessed on an annual basis with each of the Dreyfus money market fund ratings affirmed in 2018. However, the funds are subject to ongoing surveillance and the rating agencies may revise the fund rating or outlook at any time. The portfolio's credit quality does not remove market risks. Standard & Poor's (S&P) believes that, with a Principal Stability Rating of AAA, the fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology, visit www.standardandpoors.com. Moody’s Investors Service rates money market mutual funds 'Aaa-mf' if, in Moody's opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody's assessment of a fund's Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology, visit www.moodys.com. National Association of Insurance Commissioners approved mutual fund list; U.S. Direct Obligations/Full Faith and Credit Exempt list (DOFFC) are exempt from NAIC reserve requirements. NAIC listing is not a principal stability rating. Subject to annual review. For more information on rating methodology, visit www.naic.org. NAIC designations are suitable for NAIC members' use in determining if a fund has met certain eligibility requirements for NAIC listing. NAIC designation should not be considered by non-members in their investment decision-making process. Rating agencies may revise or withdraw their ratings at any time, and ratings are not intended to guarantee a fund’s performance, nor are they intended to signal the suitability of an investment.

The information being provided is general information about our firm and its products and services. It should not be construed as investment advice or a recommendation with respect to any product or service. Please consult a legal, tax or investment advisor in order to determine whether an investment product or service is appropriate for a particular situation.

The Dreyfus Corporation and MBSC Securities Corporation are affiliated with The Bank of New York Mellon Corporation.
