Investors should consider the investment objectives, risks, charges, and expenses of a mutual fund carefully before investing. To obtain a prospectus, or summary prospectus, if available, that contains this and other information about the fund, contact your financial advisor or visit dreyfus.com. Read the prospectus carefully before investing.

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund’s sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Although, the fund’s board has no current intention to impose a fee upon the sale of shares or temporarily suspend redemptions if the fund’s liquidity falls below certain levels, the board reserves the ability to do so after providing at least 60 days’ prior written notice to shareholders.

Dividends, if any, are payable pursuant to the fund’s stated policy.

* Fund ratings are statements of opinion, not statements of fact or recommendations to buy, sell or hold the shares of a fund and are subject to change. The portfolio’s credit quality does not remove market risks. All funds are formally assessed on an annual basis with each of the Dreyfus money market fund ratings affirmed in 2018. However, the funds are subject to ongoing surveillance and the rating agencies may revise the fund rating or outlook at any time. Standard & Poor’s (S&P) believes that, with a Principal Stability Rating of AAAm, the fund has an extremely strong capacity to maintain principal and stability and to limit exposure to principal losses due to credit, market, and/or liquidity risks. For more information on rating methodology, visit www.standardandpoors.com. Moody’s Investors Service rates money market mutual funds ‘Aaa-mf’ if, in Moody’s opinion, a fund has a very strong ability to meet the dual objectives of providing liquidity and preserving capital. This rating, which is derived from a combination of Moody’s assessment of a fund’s Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund. For more information on rating methodology, visit www.moodys.com. Rating agencies may revise or withdraw their ratings at any time, and ratings are not intended to guarantee a fund’s performance, nor are they intended to signal the suitability of an investment.
