7-day yield 0.44%
SEC 30-day yield 0.42%

The performance data quoted represents past performance, which is no guarantee of future results. Current performance may be lower or higher than the performance quoted. Go to dreyfus.com for the fund’s most recent month-end returns. Yield fluctuates. SEC 30-day yield is based upon dividends per share from net investment income during the past 30 days, divided by the period ended maximum offering price per share and annualized.

1 As a measure of current income, 7-day yield more closely reflects the fund’s current income-generating ability than the total return.

2 Portfolio composition is subject to change at any time.

3 Please see the prospectus for expenses as of the fund’s most recent fiscal year-end. Operating expenses may vary from month to month.

4 Any order in proper form placed with BNY Mellon Investment Adviser, Inc. by the fund’s trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.

5 Data reflects days until final maturity for individual portfolio securities.

6 WAM is a measure of the average maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument, and taking into account applicable “maturity shortening” provisions provided by Rule 2a-7. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.

7 WAL is the WAM of the money market fund calculated without reference to the “maturity shortening” provisions of Rule 2a-7 permitted for purposes of calculating WAM. Because WAL does not reflect the rule’s “maturity shortening” provisions, WAL will generally be higher than WAM.

8 Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (IF ANY) distributed during the period, and annualized based upon the number of days in the distribution period.

**Fund Goal**

The fund seeks to maximize current income exempt from federal income tax, to the extent consistent with the preservation of capital and the maintenance of liquidity.

**Investment Approach**

To pursue its goal, the fund normally invests substantially all of its net assets in short-term, high-quality municipal obligations that provide income exempt from federal income taxes. The fund also may invest in high-quality, short-term structured notes, which are derivative instruments whose value is tied to underlying municipal obligations. Although the fund seeks to provide income exempt from federal income tax, income from some of the fund's holdings may be subject to the federal alternative minimum tax. In addition, the fund may invest temporarily in high-quality, taxable money market instruments, including when the portfolio manager believes that acceptable municipal obligations are not available for investment. During such periods, the fund may not achieve its investment objective.

Investors should consider the investment objectives, risks, charges, and expenses of a mutual fund carefully before investing. To obtain a prospectus, or summary prospectus, if available, that contains this and other information about the fund, contact your financial advisor or visit dreyfus.com. Read the prospectus carefully before investing.

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. The fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the fund’s liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund’s sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

The fund's short-term corporate and asset-backed securities holdings involve credit and liquidity risks and risk of principal loss. Dividends, if any, are payable pursuant to the fund's stated policy.
