1As a measure of current income, 7-day yield more closely reflects the fund’s current income-generating ability than the total return.
2The yields quoted reflect the current absorption of certain fund expenses by Dreyfus, without which yields would be “restated” as shown above.
3Portfolio composition is subject to change at any time.
4Please see the prospectus for expenses as of the fund’s most recent fiscal year-end. Operating expenses may vary from month to month.
5Any order in proper form placed with Dreyfus by the fund’s trading deadline and for which federal funds are received by 6:00 PM ET will be effective on that date. Investors will earn the dividend declared on that day.
6Data reflects days until final maturity for individual portfolio securities.
7WAM is a measure of the average maturity of all of the underlying money market instruments in the fund, weighted to reflect the relative percentage ownership of each instrument, and taking into account applicable “maturity shortening” provisions provided by Rule 2a-7. Generally, for money market funds, WAM can be used primarily as a measure of relative sensitivity to interest rate changes.
8WAL is the WAM of the money market fund calculated without reference to the “maturity shortening” provisions of Rule 2a-7 permitted for purposes of calculating WAM. Because WAL does not reflect the rule’s “maturity shortening” provisions, WAL will generally be higher than WAM.
9Monthly yield history is the annualized distribution rate that is based upon dividends per share from net investment income paid during the period, divided by the period ended maximum offering price per share, adjusted for capital gains (if any) distributed during the period, and annualized based upon the number of days in the distribution period.

Dreyfus AMT-Free Municipal Cash Management Plus – Institutional Shares

Fund Goal
The fund seeks as high a level of current income exempt from federal income tax as is consistent with the preservation of capital and the maintenance of liquidity.

Investment Approach
To pursue its goal, the fund normally invests at least 80% of its net assets in short-term, high-quality municipal obligations that provide income exempt from both federal income taxes and the federal alternative minimum tax. The fund also may invest in high-quality, short-term structured notes, which are derivate instruments whose value is tied to underlying municipal obligations.

Effective on or about June 3, 2019, The Dreyfus Corporation will be renamed BNY Mellon Investment Adviser Inc., BNY Mellon Cash Investment Strategies will be renamed Dreyfus Cash Investment Strategies, and MBSC Securities Corporation will be renamed BNY Mellon Securities Corporation.
