**S&P rates specific issues on a scale from A-1 to D. S&P believes that, with an A-1 rating, the obligor's capacity to meet its financial commitment on the obligation is strong. Within the A-1 category it can be designated with a plus sign (+). This indicates that the issuer's commitment to meet its obligation is very strong.**

An investment in a money market fund is not a guaranteed investment; it is different to an investment in deposits as the principal invested is capable of fluctuation. The Fund does not rely on external support for guaranteeing its ability to sell its assets and/or meet redemptions (liquidity) or stabilizing the fund's price per unit/share (Net Asset Value). There is a risk of loss of the principal invested, which is borne by the investor.

The fund outlined is not available to U.S. Persons (as described in the Prospectus) and may only be offered and sold in accordance with Regulation S under the U.S. Securities Act of 1933. Please see over for important information.
