The holdings listed should not be considered recommendations to buy or sell a security. Large concentrations can increase share price volatility.

Goal/Approach

The fund seeks long-term capital appreciation. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of large-cap companies, currently considered to be companies with total market capitalizations of $5 billion or more at the time of purchase. The fund is designed to provide exposure to various large-cap equity portfolio managers and investment strategies and styles and uses tax-sensitive strategies to reduce the impact of federal and state income taxes on the fund’s after-tax returns.

Portfolio Management

The investment adviser for the fund is BNY Mellon Fund Advisers, a division of The Dreyfus Corporation. Caroline Lee Tsao has been the fund’s primary portfolio manager responsible for investment allocation since December 2015. She is a senior investment strategist for BNY Mellon Wealth Management and manages the fund as an employee of The Dreyfus Corporation. Ms. Lee Tsao has been employed by The Bank of New York Mellon since August 2013. She has also been employed by Dreyfus since December 2015.

Investors should consider the investment objectives, risks, charges, and expenses of the fund carefully before investing. Contact your financial advisor to obtain a prospectus and, if available, the summary prospectus that contains this and other information about the fund, and read it carefully before investing.

The Dreyfus Corporation, BNY Mellon Wealth Management, and MBSC Securities Corporation are affiliated with The Bank of New York Mellon Corporation.

*Source: Morningstar. The Morningstar Rating™ for funds, or “star rating,” is calculated for managed products with at least a 3-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product’s monthly excess performance (not including the effects of sales charges, loads and redemption fees if applicable), placing more emphasis on downward variations and rewarding consistent performance. Managed products, including open-end mutual funds, closed-end funds and exchange-traded funds, are considered a single population for comparative purposes. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. ©2019 Morningstar, Inc. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results. The fund represents a single portfolio with multiple share classes that have different expense structures. Other share classes may have achieved different results. Ratings do not reduce investment risk and are subject to change.

1Portfolio composition is as of 03/31/2019 and is subject to change at any time.

Risks: Equities are subject to market, market sector, market liquidity, issuer, and investment style risks, to varying degrees. Investing in foreign denominated and/or domiciled securities involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries.
