Goal/Approach
The fund seeks to surpass the performance of the Russell Midcap® Value Index. To pursue this goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of mid-cap companies. The fund currently considers mid-cap companies to be those with market capitalizations, at the time of purchase, within the market capitalization range of companies comprising the Russell Midcap® Value Index. The fund’s portfolio managers identify potential investments through extensive quantitative and fundamental research. The fund focuses on individual stock selection (a “bottom-up” approach), emphasizing three key factors: relative value, business health, and business momentum.

Not all classes of shares may be available to all investors or through all broker/dealer platforms.

1Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. 2Portfolio composition is as of 06/30/2019 and is subject to change at any time. 3Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. 4Source: FactSet. The Russell Midcap® Value Index measures the performance of the mid-cap value segment of the U.S. equity universe. It includes those Russell Midcap® Index companies that are considered more value-oriented relative to the overall market as defined by Russell’s leading style methodology. The Russell Midcap® Value Index is constructed to provide a comprehensive and unbiased barometer of the mid-cap value market. The index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true mid-cap value market. Investors cannot invest directly in any index.
