1Portfolio composition is as of 06/30/2019 and is subject to change at any time. 2Average Effective Maturity is the weighted average of the effective maturity dates of the fixed-income securities in the fund’s holdings. 3Average Effective Duration is used to measure the market price sensitivity of the fund’s portfolio holdings to changes in interest-rates. 4Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. 5Source: FactSet. The Bloomberg Barclays U.S. Municipal Bond Index covers the U.S. dollar-denominated long-term tax-exempt bond market. Investors cannot invest directly in any index.

Tax advantaged investments typically are not suitable for qualified plans, such as 401(k)s.

Goal/Approach
The fund seeks as high a level of current income exempt from federal, New York state and New York city income taxes as is consistent with the preservation of capital.

To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in municipal bonds that provide income exempt from federal, New York state and New York city income taxes. Municipal bonds are debt securities or other obligations issued by states, territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, or multistate agencies and authorities, and certain other specified securities.

Portfolio Management
The fund's investment adviser is BNY Mellon Investment Adviser, Inc. Thomas Casey and Daniel Rabasco are the fund's primary portfolio managers, positions they have held since December 2009 and July 2014, respectively. Mr. Casey is a senior portfolio manager for tax-sensitive strategies at Mellon Investments Corporation (Mellon), an affiliate of BNY Mellon Investment Adviser, Inc. Mr. Rabasco is the Chief Investment Officer for Tax Sensitive Fixed Income at Mellon. Mellon investment professionals manage the fund in their capacity as employees of BNY Mellon Investment Adviser, Inc.

Investors should consider the investment objectives, risks, charges and expenses of a mutual fund carefully before investing. *Source: Morningstar. The Morningstar Rating™ for funds, or “star rating,” is calculated for managed products with at least a 3-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance (not including the effects of sales charges, loads and redemption fees if applicable), placing more emphasis on downward variations and rewarding consistent performance. Managed products, including open-end mutual funds, closed-end funds and exchange-traded funds, are considered a single population for comparative purposes. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its 3-, 5-, and 10-year (if applicable) Morningstar Rating metrics. ©2019 Morningstar, Inc. Ratings do not reduce investment risk and are subject to change.

*Portfolio composition is as of 06/30/2019 and is subject to change at any time. *Bond ratings reflect the rating entity's evaluation of the issuer's ability to pay interest and repay principal on the bond on a timely basis. Bonds rated BBB/Baa or higher are considered investment grade, while bonds rated BB/Ba or lower are considered speculative as to the timely payment of interest and principal. *Credit ratings reflect only those assigned by S&P, Moody's, and/or Fitch. Split-rated securities if any, are reported in the higher rating category.

Risks: Bonds are subject to interest-rate, credit, liquidity, call and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes and rate increases can cause price declines. High yield bonds involve increased credit and liquidity risk than higher-rated bonds and are considered speculative in terms of the issuer's ability to pay interest and repay principal on a timely basis. Municipal income may be subject to state and local taxes for out-of-state residents. Some income may be subject to the federal alternative minimum tax for certain investors. Capital gains, if any, are taxable.
