Growth of a $10,000 Investment
A hypothetical $10,000 investment in the fund's Class A shares on 5/30/08 would have been worth $27,360 on 9/30/19.

This does not reflect the 5.75% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund’s other share classes would vary.
