The performance data quoted represents past performance, which is no guarantee of future results. As a measure of current income, 7-day yield is more reflective of the fund’s current income-generating ability than total return. SEC 30-day yield is based upon dividends per share from net investment income during the past 30 days, divided by the period ended maximum offering price per share and annualized.

An investment in a money market fund is not a guaranteed investment; it is different to an investment in deposits as the principal invested is capable of fluctuation. The Fund does not rely on external support for guaranteeing its ability to sell its assets and/or meet redemptions (liquidity) or stabilizing the fund’s price per unit/share (Net Asset Value). There is a risk of loss of the principal invested, which is borne by the investor. The fund outlined is not available to U.S. Persons (as described in the Prospectus) and may only be offered and sold in accordance with Regulation S under the U.S. Securities Act of 1933. Please see over for important information.
