Fund Goal
The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

Investment Approach
The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in government securities and repurchase agreements collateralized solely by government securities. The securities in which the fund invests include those backed by the full faith and credit of the U.S. government, which include U.S. Treasury securities as well as securities issues by certain agencies of the U.S. government, and those that are neither insured nor guaranteed by the U.S. government.
