DISCUSSION OF FUND PERFORMANCE (Unaudited)

For the period from May 1, 2021, through April 30, 2022, as provided by Daniel Rabasco and Thomas Casey, Portfolio Managers employed by the fund's sub-adviser, Insight North America LLC

Market and Fund Performance Overview

For the 12-month period ended April 30, 2022, Class A shares of BNY Mellon Massachusetts Fund (the “fund”), a series of BNY Mellon State Municipal Bond Funds, produced a total return of -8.48%, Class C shares returned -11.63% and Class Z shares returned -8.23%.¹ In comparison, the Bloomberg U.S. Municipal Bond Index (the “Index”), the fund’s benchmark index, which is comprised of bonds issued nationally and not solely within Massachusetts, achieved a total return of -7.88% for the same period.²

Municipal bonds lost ground during the reporting period due to concerns about inflation and rising interest rates. The fund underperformed the Index due to the fund’s sector allocation versus the Index and its yield-curve positioning.

The Fund’s Investment Approach

The fund seeks to maximize current income exempt from federal income tax and from Massachusetts state income tax, without assuming undue risk. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in municipal bonds that provide income exempt from federal and Massachusetts state income taxes. The fund invests at least 70% of its assets in municipal bonds rated, at the time of purchase, investment grade (Baa/BBB or higher) or the unrated equivalent as determined by BNY Mellon Investment Adviser, Inc. For additional yield, the fund may invest up to 30% of its assets in municipal bonds rated below investment grade (“high yield” or “junk” bonds) or the unrated equivalent as determined by BNY Mellon Investment Adviser, Inc. The dollar-weighted, average maturity of the fund’s portfolio normally exceeds 10 years, but the fund may invest without regard to maturity.

The portfolio managers focus on identifying undervalued sectors and securities and minimize the use of interest-rate forecasting. The portfolio managers select municipal bonds for the fund’s portfolio by using fundamental credit analysis to estimate the relative value and attractiveness of various sectors and securities and to exploit pricing inefficiencies in the municipal bond market. The portfolio managers actively trade among various sectors, such as pre-refunded, general obligation and revenue, based on their apparent relative values. The fund seeks to invest in several of these sectors.

Market Hindered by Inflation, Rising Rates

The reporting period was marked by on-and-off recovery from the pandemic, rising concerns about inflation and a shift in policy stance by the Federal Reserve (the “Fed”) from accommodation to tightening. This shift as well as other concerns, including Russia’s invasion of Ukraine and rising prospects of recession, contributed to an increase in volatility.

COVID-19 policies in certain countries led to supply-chain bottlenecks that resulted in shortages of certain products, such as computer chips, which slowed production in other industries, fueling inflation. The delta variant also injected some uncertainty into the outlook for the ongoing recovery. Although the U.S. economy grew by an annualized rate of 6.7% in the second quarter of 2021, pandemic-related uncertainties, combined with supply-chain

issues, caused many economists to reduce their forecasts for the balance of the year. Around the end of the year, the omicron COVID-19 variant led many countries to enact precautionary restrictions, adding uncertainty to the economic outlook heading into 2022.

The reporting period was also marked by a pivot on monetary policy, driven by stronger-than-expected inflation. As late as its September 2021 meeting, the Fed was still not noticeably concerned about pricing pressures, though it did raise its inflation forecast from 3.4% to 4.2% for 2021 and from 2.1% to 2.2% for 2022. Nonetheless, the Fed's "dot plot" indicated that voting members of the Federal Open Market Committee were split on forecasting a tightening of monetary policy during 2022.

In the fourth quarter of 2021, continuing supply-chain disruptions and rising energy prices helped push the CPI to 6.8%, the highest reading since 1982, and high enough to prompt a change in the Fed's stance. Having begun tapering its bond purchases by \$15 billion a month in November 2021, the Fed swiftly accelerated the pace to \$30 billion a month later. The new hawkish stance was also reflected at the December 2021 Fed meeting and in a new "dot plot" suggesting that three rate hikes were likely in 2022, followed by three more in 2023 and another two in 2024. But in retrospect, the Fed seemed behind the curve as its inflation estimate for 2022 was revised up to only 2.6% from 2.2%.

Inflation continued to rise in the first quarter of 2022, and major central banks continued to tighten their policies. As a result, government bonds weakened significantly, with the 10-year U.S. Treasury yield rising by 83 basis points (bps) to 2.34% during the quarter. Credit markets generally declined even more than government bonds, as spreads widened, adding to the higher yields on underlying government bonds.

In March 2022, responding to persistent and higher-than-expected inflation, the Fed raised interest rates for the first time since 2018. As expected, the federal funds target rate was raised by 0.25% to 0.50%. Data released in March showed that headline consumer price inflation reached 7.9% in February 2022, its highest in 40 years, prompting the Fed to indicate that it intends to provide a steady stream of rate increases throughout 2022, and likely beyond. The surge in Treasury yields reflected the ongoing news regarding ever-higher inflation, with some market participants voicing concern that the Fed has fallen behind the curve in waiting to increase rates.

Geopolitical events also roiled markets early in 2022. The invasion of Ukraine and the sanctions imposed on Russia led to further spikes in energy and commodity prices. With the two countries being major producers of wheat and corn, those prices, as well as other industrial commodities, rose during the quarter. While Russian authorities may have expected to swiftly achieve their objective, their military advances slowed, leading to expectations that the conflict could persist for months.

In the municipal bond market, inflows were strong in the first part of the reporting period as the market enjoyed support from a recovering economy, which produced robust tax revenues and improving credit fundamentals. Late in the period, rising inflation and the Fed's shift to a hawkish stance led to volatility, resulting in large outflows and widening credit spreads.

DISCUSSION OF FUND PERFORMANCE (Unaudited) (continued)

Nevertheless, fundamentals in the municipal bond market generally remain strong. Massachusetts' economy continues to perform well, with revenues exceeding pre-pandemic levels.

Curve Positioning and Asset Allocation Drove Fund Results

The fund's underperformance was driven by unfavorable returns at the long end of the curve, specifically in the 20-year maturities. An overweight to revenue bonds also detracted from relative returns. More specifically, holdings in the airports, prepaid gas, tobacco and transportation sectors hampered performance. Exposure to lower-quality bonds also was detrimental. The fund did not use derivatives during the reporting period.

On a more positive note, the fund's duration positioning, which was shortened late in 2021, contributed positively to results. In addition, positions in the health care/hospital and education sectors also added to performance.

A Positive Outlook

We continue to expect that the Fed will maintain an upward bias on rates, that higher rates of inflation will persist, and that the market will see some volatility as a result. Volatility has resulted in more attractive valuations, but the state's fundamentals remain strong. Nevertheless, given that inflation and rates are likely to continue to rise, we expect to keep the fund's duration short versus the benchmark.

May 16, 2022

¹ Total return includes reinvestment of dividends and any capital gains paid and does not take into consideration the maximum initial sales charge in the case of Class A shares or the applicable contingent deferred sales charge imposed on redemptions in the case of Class C shares. Had these charges been reflected, returns would have been lower. Class Z is not subject to any initial or deferred sales charge. Past performance is no guarantee of future results. Share price, yield and investment return fluctuate such that upon redemption, fund shares may be worth more or less than their original cost. Income may be subject to state and local taxes, and some income may be subject to the federal alternative minimum tax (AMT) for certain investors. Capital gains, if any, are taxable.

² Source: Lipper Inc. — The Bloomberg U.S. Municipal Bond Index covers the U.S. dollar-denominated, long-term, tax-exempt bond market. Investors cannot invest directly in any index.

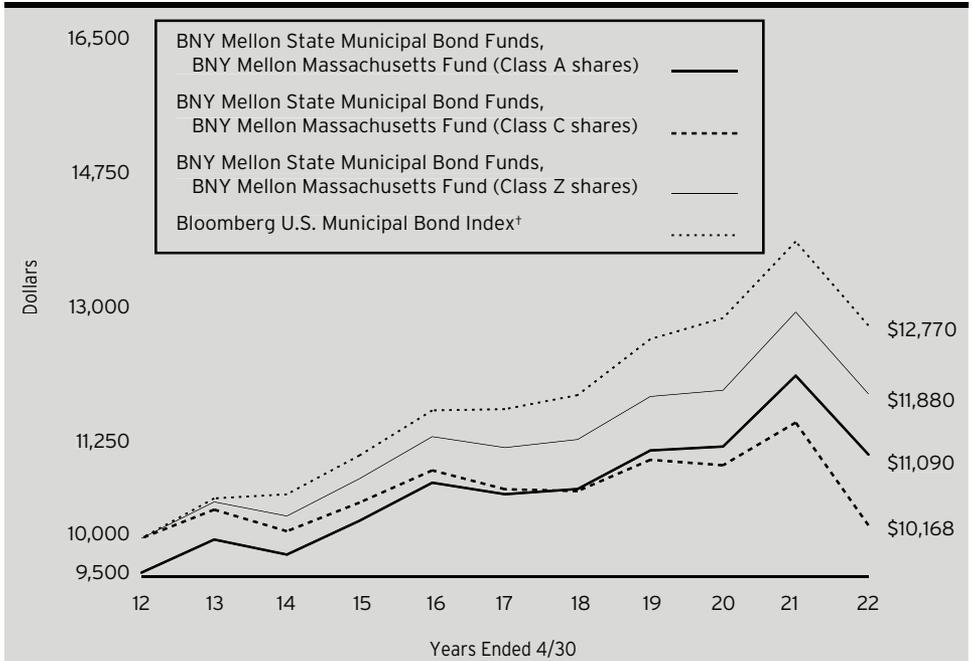

Bonds are subject generally to interest-rate, credit, liquidity and market risks, to varying degrees, all of which are more fully described in the fund's prospectus. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes, and rate increases can cause price declines.

The amount of public information available about municipal bonds is generally less than that for corporate equities or bonds. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the fund's investments in municipal bonds. Other factors include the general conditions of the municipal bond market, the size of the particular offering, the maturity of the obligation and the rating of the issue. Changes in economic, business or political conditions relating to a particular municipal project, municipality or state in which the fund invests may have an impact on the fund's share price.

References to specific securities, asset classes and financial markets are for illustrative purposes only and are not intended to be and should not be interpreted as recommendations.

Recent market risks include pandemic risks related to COVID-19. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.

FUND PERFORMANCE (Unaudited)

Comparison of change in value of \$10,000 investment in Class A shares, Class C shares and Class Z shares of BNY Mellon State Municipal Bond Funds, BNY Mellon Massachusetts Fund with a hypothetical investment of \$10,000 in the Bloomberg U.S. Municipal Bond Index (the “Index”).

† Source: Lipper Inc.

Past performance is not predictive of future performance.

The above graph compares a hypothetical \$10,000 investment made in each of the Class A shares, Class C shares and Class Z shares of BNY Mellon State Municipal Bond Funds, BNY Mellon Massachusetts Fund on 4/30/12 to a hypothetical investment of \$10,000 made in the Index on that date. All dividends and capital gain distributions are reinvested.

The fund’s performance shown in the line graph above takes into account the maximum initial sales charge on Class A shares and all other applicable fees and expenses on all classes. The Index is not limited to investments principally in Massachusetts municipal obligations. The Index, unlike the fund, covers the U.S. dollar-denominated long-term tax-exempt bond market. These factors can contribute to the Index potentially outperforming or underperforming the fund. Unlike a mutual fund, the Index is not subject to charges, fees and other expenses. Investors cannot invest directly in any index. Further information relating to fund performance, including expense reimbursements, if applicable, is contained in the Financial Highlights section of the prospectus and elsewhere in this report.

FUND PERFORMANCE (*Unaudited*) (*continued*)

Average Annual Total Returns as of 4/30/2022

	1 Year	5 Years	10 Years
Class A shares			
<i>with maximum sales charge (4.50%)</i>	-12.56%	.04%	1.04%
<i>without sales charge</i>	-8.48%	.96%	1.51%
Class C shares			
<i>with applicable redemption charge[†]</i>	-12.50%	-.90%	.17%
<i>without redemption</i>	-11.63%	-.90%	.17%
Class Z shares	-8.23%	1.22%	1.74%
Bloomberg U.S. Municipal Bond Index	-7.88%	1.80%	2.48%

[†] *The maximum contingent deferred sales charge for Class C shares is 1% for shares redeemed within one year of the date of purchase. The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. Go to www.im.bnymellon.com for the fund's most recent month-end returns.*

The fund's performance shown in the graph and table does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. In addition to the performance of Class A shares shown with and without a maximum sales charge, the fund's performance shown in the table takes into account all other applicable fees and expenses on all classes.

UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads) and redemption fees, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in BNY Mellon State Municipal Bond Funds, BNY Mellon Massachusetts Fund from November 1, 2021 to April 30, 2022. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

Expenses and Value of a \$1,000 Investment			
Assume actual returns for the six months ended April 30, 2022			
	Class A	Class C	Class Z
Expenses paid per \$1,000 [†]	\$5.04	\$18.93	\$3.81
Ending value (after expenses)	\$917.30	\$904.20	\$918.50

COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

Using the SEC's method to compare expenses

The Securities and Exchange Commission ("SEC") has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

Expenses and Value of a \$1,000 Investment			
Assuming a hypothetical 5% annualized return for the six months ended April 30, 2022			
	Class A	Class C	Class Z
Expenses paid per \$1,000 [†]	\$5.31	\$19.93	\$4.01
Ending value (after expenses)	\$1,019.54	\$1,004.91	\$1,020.83

[†] Expenses are equal to the fund's annualized expense ratio of 1.06% for Class A, 4.01% for Class C and .80% for Class Z, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

^a Security issued with a zero coupon. Income is recognized through the accretion of discount.

^b Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At April 30, 2022, these securities were valued at \$4,654,610 or 4.42% of net assets.

^c These securities are prerefunded; the date shown represents the prerefunded date. Bonds which are prerefunded are collateralized by U.S. Government securities which are held in escrow and are used to pay principal and interest on the municipal issue and to retire the bonds in full at the earliest refunding date.

FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information (except portfolio turnover rate) reflects financial results for a single fund share. Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, and redemption at net asset value on the last day of the period. Net asset value total return includes adjustments in accordance with accounting principles generally accepted in the United States of America and as such, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset value and returns for shareholder transactions. These figures have been derived from the fund's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

BNY Mellon Massachusetts Fund (the “fund”) is a separate non-diversified series of BNY Mellon State Municipal Bond Funds (the “Trust”), which is registered under the Investment Company Act of 1940, as amended (the “Act”), as an open-end management investment company and operates as a series company currently offering three series, including the fund. The fund’s investment objective is to seek to maximize current income exempt from federal income tax and from Massachusetts state income tax, without undue risk. BNY Mellon Investment Adviser, Inc. (the “Adviser”), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (“BNY Mellon”), serves as the fund’s investment adviser. Effective September 1, 2021 (the “Effective Date”), the Adviser has engaged its affiliate, Insight North America LLC (the “Sub-Adviser”) as the fund’s sub-adviser pursuant to a sub-investment advisory agreement between the Adviser and Sub-Adviser. The Sub-Adviser provides the day-to-day management of the fund’s investments, subject to the Adviser’s supervision and approval. The Adviser (and not the fund) pays the Sub-Adviser for its sub-advisory services. As of the Effective Date, portfolio managers responsible for managing the fund’s investments who were employees of Mellon Investments Corporation (“Mellon”) in a dual employment arrangement with the Adviser, have become employees of the Sub-Adviser, and are no longer employees of Mellon.

BNY Mellon Securities Corporation (the “Distributor”), a wholly-owned subsidiary of the Adviser, is the distributor of the fund’s shares. The fund is authorized to issue an unlimited number of \$.001 par value shares of Beneficial Interest in each of the following classes of shares: Class A, Class C and Class Z. Class A and Class C shares are sold primarily to retail investors through financial intermediaries and bear Distribution and/or Shareholder Services Plan fees. Class A shares generally are subject to a sales charge imposed at the time of purchase. Class A shares bought without an initial sales charge as part of an investment of \$1 million or more may be charged a contingent deferred sales charge (“CDSC”) of 1.00% if redeemed within one year. Class C shares are subject to a CDSC imposed on Class C shares redeemed within one year of purchase. Class C shares automatically convert to Class A shares eight years after the date of purchase, without the imposition of a sales charge. Class Z shares are sold at net asset value per share to certain shareholders of the fund. Class Z shares generally are not available for new accounts and bear Shareholder Services Plan fees. Class Z shares are offered without a front-end sales charge or CDSC. Other differences between the classes include the

services offered to and the expenses borne by each class, the allocation of certain transfer agency costs, and certain voting rights. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

As of April 30, 2022, MBC Investments Corporation, an indirect subsidiary of BNY Mellon, held 882 Class C shares of the fund.

The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund is an investment company and applies the accounting and reporting guidance of the FASB ASC Topic 946 Financial Services-Investment Companies. The fund's financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Trust enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund's investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the fund's investments are as follows:

Investments in securities are valued each business day by an independent pricing service (the "Service") approved by the Trust's Board of Trustees (the "Board"). Investments for which quoted bid prices are readily available and are representative of the bid side of the market in the judgment of the Service are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). Debt investments (which constitute a majority of the portfolio securities) are carried at fair value as determined by the Service, based on methods which include consideration of the following: yields or prices of municipal securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. All of the preceding securities are generally categorized within Level 2 of the fair value hierarchy.

The Service is engaged under the general oversight of the Board.

When market quotations or official closing prices are not readily available, or are determined not to accurately reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the fund calculates its net asset value, the fund may value these investments at fair value as determined in accordance with the procedures approved by the Board. Certain factors may be considered when fair valuing investments such as: fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that

influence the market in which the securities are purchased and sold, and public trading in similar securities of the issuer or comparable issuers. These securities are either categorized within Level 2 or 3 of the fair value hierarchy depending on the relevant inputs used.

For securities where observable inputs are limited, assumptions about market activity and risk are used and such securities are generally categorized within Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of April 30, 2022 in valuing the fund's investments:

	Level 1- Unadjusted Quoted Prices	Level 2- Other Significant Observable Inputs	Level 3- Significant Unobservable Inputs	Total
Assets (\$)				
Investments in Securities:†				
Municipal Securities	-	105,358,222	-	105,358,222

† See Statement of Investments for additional detailed categorizations, if any.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gains and losses from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the trade date.

The fund follows an investment policy of investing primarily in municipal obligations of one state. Economic changes affecting the state and certain of its public bodies and municipalities may affect the ability of issuers within the state to pay interest on, or repay principal of, municipal obligations held by the fund.

(c) Risk: Certain events particular to the industries in which the fund's investments conduct their operations, as well as general economic, political and public health conditions, may have a significant negative impact on the investee's operations and profitability. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect the fund. Global economies and financial markets are becoming increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different country, region or financial market. These risks may be magnified if certain events or developments adversely interrupt the global supply chain; in

these and other circumstances, such risks might affect companies world-wide. Recent examples include pandemic risks related to COVID-19 and aggressive measures taken world-wide in response by governments, including closing borders, restricting international and domestic travel, and the imposition of prolonged quarantines of large populations, and by businesses, including changes to operations and reducing staff. The effects of COVID-19 have contributed to increased volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically than others. The COVID-19 pandemic has had, and any other outbreak of an infectious disease or other serious public health concern could have, a significant negative impact on economic and market conditions and could trigger a prolonged period of global economic slowdown. To the extent the fund may overweight its investments in certain countries, companies, industries or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those countries, companies, industries or sectors.

(d) Dividends and distributions to shareholders: It is the policy of the fund to declare dividends daily from net investment income. Such dividends are paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the "Code"). To the extent that net realized capital gains can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gains. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP.

(e) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax-exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended April 30, 2022, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended April 30, 2022, the fund did not incur any interest or penalties.

Each tax year in the four-year period ended April 30, 2022 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At April 30, 2022, the components of accumulated earnings on a tax basis were as follows: undistributed tax-exempt income \$153,321, undistributed capital gains \$131,166 and unrealized depreciation \$3,664,595.

The tax character of distributions paid to shareholders during the fiscal years ended April 30, 2022 and April 30, 2021 were as follows: tax-exempt income \$2,383,369 and \$2,714,221 and long-term capital gains \$1,476,508 and \$352,019, respectively.

(f) New accounting pronouncements: In March 2020, the FASB issued Accounting Standards Update 2020-04, Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting (“ASU 2020-04”), and in January 2021, the FASB issued Accounting Standards Update 2021-01, Reference Rate Reform (Topic 848): Scope (“ASU 2021-01”), which provides optional, temporary relief with respect to the financial reporting of contracts subject to certain types of modifications due to the planned discontinuation of the LIBOR and other interbank offered rates as of the end of 2021. The temporary relief provided by ASU 2020-04 and ASU 2021-01 is effective for certain reference rate-related contract modifications that occur during the period from March 12, 2020 through December 31, 2022. Management is evaluating the impact of ASU 2020-04 and ASU 2021-01 on the fund’s investments, derivatives, debt and other contracts that will undergo reference rate-related modifications as a result of the reference rate reform. Management is also currently actively working with other financial institutions and counterparties to modify contracts as required by applicable regulation and within the regulatory deadlines.

NOTE 2—Bank Lines of Credit:

The fund participates with other long-term open-end funds managed by the Adviser in a \$823.5 million unsecured credit facility led by Citibank, N.A. (the “Citibank Credit Facility”) and a \$300 million unsecured credit facility provided by BNY Mellon (the “BNYM Credit Facility”), a subsidiary of BNY Mellon and an affiliate of the Adviser, each to be utilized primarily for temporary or emergency purposes, including the financing of redemptions (each, a “Facility”). The Citibank Credit Facility is available in two tranches: (i) Tranche A is in an amount equal to \$688.5 million and is available to all long-term open-ended funds, including the fund, and (ii) Tranche B is an amount equal to \$135 million and is available only to BNY Mellon Floating Rate Income Fund, a series of BNY Mellon Investment Funds IV, Inc. In connection therewith, the fund has agreed to pay its pro rata portion of commitment fees for Tranche A of the Citibank Credit Facility and the BNYM Credit Facility. Interest is charged to the fund based on rates determined pursuant to the terms of the respective

Facility at the time of borrowing. During the period ended April 30, 2022, the fund did not borrow under the Facilities.

NOTE 3—Management Fee, Sub-Investment Advisory Fee and Other Transactions with Affiliates:

(a) Pursuant to a management agreement with the Adviser, the management fee is computed at the annual rate of .55% of the value of the fund's average daily net assets and is payable monthly.

As of the Effective Date, pursuant to a sub-investment advisory agreement between the Adviser and the Sub-Adviser, the Adviser pays the Sub-Adviser a monthly fee at an annual rate of .264% of the value of the fund's average daily net assets.

(b) Under the Distribution Plan adopted pursuant to Rule 12b-1 under the Act, Class C shares pay the Distributor for distributing its shares at an annual rate of .75% of the value of its average daily net assets. The Distributor may pay one or more Service Agents in respect of advertising, marketing and other distribution services, and determines the amounts, if any, to be paid to Service Agents and the basis on which such payments are made. During the period ended April 30, 2022, Class C shares were charged \$76 pursuant to the Distribution Plan.

(c) Under the Shareholder Services Plan, Class A and Class C shares pay the Distributor at an annual rate of .25% of the value of their average daily net assets for the provision of certain services. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the fund, and services related to the maintenance of shareholder accounts. The Distributor may make payments to Service Agents (securities dealers, financial institutions or other industry professionals) with respect to these services. The Distributor determines the amounts to be paid to Service Agents. During the period ended April 30, 2022, Class A and Class C shares were charged \$59,722 and \$25, respectively, pursuant to the Shareholder Services Plan.

Under the Shareholder Services Plan, Class Z shares reimburse the Distributor at an amount not to exceed an annual rate of .25% of the value of Class Z shares' average daily net assets for certain allocated expenses of providing personal services and/or maintaining shareholder accounts. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding Class Z shares, and services related to the maintenance of shareholder accounts. During the period ended April 30, 2022, Class Z shares were charged \$0 pursuant to the Shareholder Services Plan.

The fund has arrangements with BNY Mellon Transfer, Inc., (the “Transfer Agent”) and The Bank of New York Mellon (the “Custodian”), both a subsidiary of BNY Mellon and an affiliate of the Adviser, whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes transfer agent net earnings credits, if any, as shareholder servicing costs and includes custody net earnings credits, if any, as an expense offset in the Statement of Operations.

The fund compensates the Transfer Agent, under a transfer agency agreement for providing transfer agency and cash management services inclusive of earnings credits, if any, for the fund. The majority of Transfer Agent fees are comprised of amounts paid on a per account basis, while cash management fees are related to fund subscriptions and redemptions. During the period ended April 30, 2022, the fund was charged \$30,868 for transfer agency services, inclusive of earnings credit, if any. These fees are included in Shareholder servicing costs in the Statement of Operations.

The fund compensates the Custodian under a custody agreement, for providing custodial services for the fund. These fees are determined based on net assets, geographic region and transaction activity. During the period ended April 30, 2022, the fund was charged \$2,853 pursuant to the custody agreement. These fees were partially offset by earnings credits of \$615.

The fund compensates the Custodian under a shareholder redemption draft processing agreement for providing certain services related to the fund’s check writing privilege. During the period ended April 30, 2022, the fund was charged \$1,633 pursuant to the agreement, which is included in Shareholder servicing costs in the Statement of Operations.

During the period ended April 30, 2022, the fund was charged \$17,491 for services performed by the Chief Compliance Officer and his staff. These fees are included in Chief Compliance Officer fees in the Statement of Operations.

The components of “Due to BNY Mellon Investment Adviser, Inc. and affiliates” in the Statement of Assets and Liabilities consist of: management fees of \$48,442, Distribution Plan fees of \$6, Shareholder Services Plan fees of \$4,392, Custodian fees of \$971, Chief Compliance Officer fees of \$7,335 and Transfer Agent fees of \$5,245.

(d) Each Board member also serves as a Board member of other funds in the BNY Mellon Family of Funds complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 4—Securities Transactions:

The aggregate amount of purchases and sales of investment securities, excluding short-term securities, during the period ended April 30, 2022, amounted to \$9,924,527 and \$17,757,745, respectively.

At April 30, 2022, the cost of investments for federal income tax purposes was \$109,022,817, accordingly, accumulated net unrealized depreciation on investments was \$3,664,595, consisting of \$1,301,474 gross unrealized appreciation and \$4,966,069 gross unrealized depreciation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Trustees of BNY Mellon Massachusetts Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of BNY Mellon Massachusetts Fund (the “Fund”) (one of the funds constituting BNY Mellon State Municipal Bond Funds), including the statement of investments, as of April 30, 2022, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting BNY Mellon State Municipal Bond Funds) at April 30, 2022, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2022, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more investment companies in the BNY Mellon Family of Funds since at least 1957, but we are unable to determine the specific year.

New York, New York

June 22, 2022

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby reports all the dividends paid from net investment income during its fiscal year ended April 30, 2022 as “exempt-interest dividends” (not subject to regular federal income tax, and for individuals who are Massachusetts residents, Massachusetts personal income taxes). Where required by federal tax law rules, shareholders will receive notification of their portion of the fund’s taxable ordinary dividends (if any), capital gains distributions (if any) and tax-exempt dividends paid for the 2022 calendar year on Form 1099-DIV which will be mailed in early 2023. The fund also hereby reports \$.1458 per share as a long-term capital gain distribution paid on December 23, 2021.
