This report describes changes to the Fund that occurred during the reporting period.

What were the Fund’s costs for the last year?

(based on a hypothetical \$10,000 investment)

Share Class	Costs of a \$10,000 investment	Costs paid as a percentage of a \$10,000 investment
Class A*	\$130	1.13%

* During the period, fees were waived and/or expenses reimbursed pursuant to an agreement with the Fund’s investment adviser, BNY Mellon Investment Adviser, Inc. Effective December 30, 2023, this agreement was not extended, and expenses could be higher.

How did the Fund perform last year?

- For the 12-month period ended August 31, 2024, the Fund’s Class A shares returned 30.27%.
- In comparison, the NYSE® Technology Index returned 30.72% for the same period.

What affected the Fund’s performance?

- Stocks performed well due to strong thematic fundamentals, especially regarding generative Artificial Intelligence, and the likelihood of a soft landing and lower interest rates, which should benefit technology stocks.
- Selections in the software and information technology services industries, in particular, were the primary laggards.
- Security selection in the industrial and health care sectors contributed most positively to relative performance. An underweight to the consumer discretionary sector was also beneficial.

How did the Fund perform over the past 10 years?

The Fund's past performance is not a good predictor of the Fund's future performance. The graph and table do not reflect the deduction of taxes that a shareholder would pay on fund distributions or redemption of fund shares.

Cumulative Performance from September 1, 2014 through August 31, 2024 Initial Investment of \$10,000

The above graph compares a hypothetical \$10,000 investment in the Fund's Class A shares to a hypothetical investment of \$10,000 made in each of the S&P 500® Index (a broad-based index) and NYSE® Technology Index on 8/31/2014. The performance shown takes into account the maximum initial sales charge on Class A shares and applicable fees and expenses of the Fund, including management fees and other expenses. The Fund's performance also assumes the reinvestment of dividends and capital gains. Unlike the Fund, the indexes are not subject to charges, fees and other expenses. Investors cannot invest directly in any index.

AVERAGE ANNUAL TOTAL RETURNS (AS OF 8/31/24)
