The Fund

A LETTER FROM THE PRESIDENT OF DREYFUS

Dear Shareholder:

We are pleased to present this annual report for General New York AMT-Free Municipal Money Market Fund, covering the 12-month period from December 1, 2017 through November 30, 2018. For information about how the fund performed during the reporting period, as well as general market perspectives, we provide a Discussion of Fund Performance on the pages that follow.

The reporting period began with major global economies achieving above-trend growth. In the United States, a robust economy and strong labor markets encouraged the Federal Reserve to continue moving away from its accommodative monetary policy while other major central banks also began to consider monetary tightening. In the equity sphere, both U.S. and non-U.S. markets remained on an uptrend, though investor concerns about U.S. inflation and its effect on interest rates later began to weigh on global returns. Interest rates rose across the yield curve, putting pressure on bond prices.

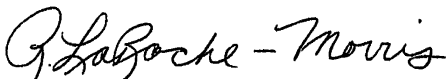

Later in the reporting period, global growth trends began to diverge and market volatility returned. While the U.S. economy continued to grow at a healthy rate, Japan rebounded, but only briefly, from a weak first quarter, and the Eurozone economy began to moderate. Robust growth and strong corporate earnings continued to support U.S. stocks while other developed markets declined. Late in the reporting period, a broad sell-off occurred, partially offsetting earlier U.S. gains. Emerging markets remained under pressure as weakness in their currencies relative to the U.S. dollar added to investors' uneasiness.

Fixed income markets continued to struggle as interest rates rose; the yield on the benchmark 10-year Treasury bond breached 3.2% despite only moderate inflation, but investor concerns about slowing global growth brought yields down toward the end of the reporting period.

Despite continuing doubts regarding trade, U.S. inflationary pressures and global growth, we are optimistic that the U.S. economy will remain strong in the near term. However, we remain attentive to signs that indicate potential changes on the horizon. As always, we encourage you to discuss the risks and opportunities in today's investment environment with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Renee Laroche-Morris
President
The Dreyfus Corporation
December 17, 2018

DISCUSSION OF FUND PERFORMANCE (Unaudited)

For the period from December 1, 2017 through November 30, 2018, as provided by Bill Vasiliou, Primary Portfolio Manager

Market and Fund Performance Overview

For the 12-month period ended November 30, 2018, General New York AMT-Free Municipal Money Market Fund's Class A shares produced a yield of 0.68%, and Class B shares yielded 0.30%. Taking into consideration the effects of compounding, the fund's Class A shares and Class B shares produced effective yields of 0.68% and 0.30%, respectively.¹

Yields of municipal money market instruments climbed during the reporting period in response to four interest-rate hikes by the Federal Reserve Board (the "Fed") and supply-and-demand dynamics in the municipal securities market.

The Fund's Investment Approach

The fund seeks to maximize current income exempt from federal, New York state, and New York city income taxes, to the extent consistent with the preservation of capital and the maintenance of liquidity.

To pursue its goal, the fund normally invests at least 80% of its net assets in short-term, high-quality municipal obligations that provide income exempt from federal, New York state and New York city income taxes and the federal alternative minimum tax. The fund also may invest in high-quality, short-term structured notes, which are derivative instruments whose value is tied to underlying municipal obligations.

Rising Rates and Tax Reform Drove Market

The year 2018 was transformative for municipals as the market faced significant upheaval due to tax reform and general market volatility. Sustained economic growth, robust labor markets, and a series of short-term interest-rate hikes by the Fed drove yields of tax-exempt money market instruments higher in the months prior to the start of the reporting period.

In anticipation of tax-reform legislation that seemed likely to inhibit certain financing vehicles, issuers of longer-term municipal bonds rushed to market in December 2017, resulting in a flood of new securities. This increase in supply put additional upward pressure on yields of municipal money market instruments when investors sold short-term securities to raise funds to purchase longer-dated bonds.

The early flood of supply subsequently produced a drought of new issuance, but supply picked up again toward the end of the reporting period, as several large issuers entered the market for their annual cash flow borrowing.

The Fed raised the overnight federal funds rate early in the reporting period, hiking the rate in both December 2017 and March 2018, which caused yields to rise on shorter-maturity instruments, most notably variable-rate demand notes ("VRDNs"), on which yields are reset weekly. Consequently, yield differences narrowed along the market's maturity spectrum.

The drought of new supply resulting from the late 2017 surge, combined with investors' need to reinvest coupon payments, pushed yields lower through mid-February. Yields also

DISCUSSION OF FUND PERFORMANCE (*Unaudited*) (*continued*)

were dampened by federal tax-reform legislation, which boosted demand from investors who now face limits on the amount of state and local tax deductions they may take on their federal tax returns.

Municipal money market yields subsequently drifted higher in response to the Fed's March 2018 rate increase, annual tax season outflows, and reports of wage growth and other potential inflationary pressures. In April 2018, the Securities Industry and Financial Markets Association Index (the "SIFMA Index") peaked at 1.81%, its highest level in 10 years. (The SIFMA Index, produced by Bloomberg L.P., is a weekly index that tracks the market of high-grade, seven-day, tax-exempt VRDNs.)

Yields moderated somewhat in May 2018, in part due to economic concerns stemming from more protectionist U.S. trade policies and political turmoil in overseas markets. In June 2018, the Federal Open Market Committee (the "FOMC") raised the federal funds rate a quarter point, as anticipated. This was the sixth quarter-point increase in 18 months and raised the target range for the federal funds rate to 1.75% to 2.00%.

The relative lack of new issuance, combined with large coupon payments, pushed fixed-note rates lower during July 2018. Demand continued to remain strong for shorter maturities due to the continued flattening of the yield curve. The SIFMA Index declined during July 2018 as reinvestment cash entering the market bolstered demand.

In August 2018, the FOMC left U.S. interest rates unchanged amid strong economic activity and low unemployment, raising expectations for a rate hike in September 2018. New issuance also began to pick up in August 2018, and the increase in the one-year maturity range pushed the one-year note index to the 2.00% level.

In September 2018, the Fed again increased the federal funds rate by a quarter point, as expected, bumping the target range for the federal funds rate to between 2.00% and 2.25%. Fed officials further indicated that additional gradual increases in the target range for the federal funds rate would be consistent with sustained expansion of economic activity, strong labor market conditions, and inflation near the Fed's 2.00% inflation objective.

In October 2018 and November 2018, the SIFMA Index stabilized as asset flows and supply normalized. The SIFMA Index averaged 1.57% in October 2018 and 1.67% in November 2018. At its early November 2018 meeting, the Fed left the target range for the federal funds rate unchanged, as expected.

Investor sentiment benefited from improved fiscal discipline on the part of states. In contrast to 2017, when many states missed important budgetary deadlines, every state with a fiscal year beginning on July 1 enacted a budget on time. To a large extent, the budget process was facilitated this year by healthy revenue growth resulting from strong job creation and an expanding economy. The New York state budget also addressed the limitations placed on personal income and property tax deductions imposed by the Tax Cuts and Jobs Act of 2017.

States with underfunded pension programs have faced credit pressures. Although New York has fared relatively well due to its diverse economic base, high wealth levels, and prudent budget management, the state's residents may experience declining home values under the new tax law due to the limited deductibility of property taxes.

Tax-exempt money market funds saw an increase in assets, particularly in the retail sector, as after-tax yields were attractive. Interest in single-state funds, specifically those of high-tax states, has produced an increase in assets, and we expect this trend to continue as rates keep posting attractive after-tax returns.

Maintaining a Prudent Investment Posture

In the generally rising interest-rate environment, most municipal money market funds maintained short weighted-average maturities with a focus on liquidity. The fund was no exception, as we set its weighted-average maturities in a range that is consistent with industry averages.

We also have maintained a careful and well-researched credit selection strategy. We have continued to identify what we believe to be low credit-risk opportunities among certain state general obligation bonds; essential service revenue bonds issued by water, sewer, and electric enterprises; select local credits with strong financial positions and stable tax bases; and various health care and education issuers.

Additional Rate Hikes Expected

The Fed raised the overnight federal funds rate to between 2.00% and 2.25% during the reporting period while continuing to unwind its balance sheet through the sale of U.S. government securities. More short-term interest-rate hikes are anticipated over the remainder of 2018 and into 2019.

Therefore, we intend to continue to emphasize liquidity in order to attempt to capture higher yields as short-term rates rise. In addition, we believe that a focus on preservation of capital and liquidity remains the prudent course for the fund's management.

December 17, 2018

¹ *Effective yield is based upon dividends declared daily and reinvested monthly. Past performance is no guarantee of future results. Yields fluctuate. Income may be subject to state and local taxes, and some income may be subject to the federal alternative minimum tax (AMT) for certain investors. Yields provided for the fund's Class B reflect the absorption of certain fund expenses by The Dreyfus Corporation pursuant to a voluntary undertaking that may be extended, terminated, or modified at any time. Had these expenses not been absorbed, the fund's Class B yields would have been lower and, in some cases, seven-day yields during the reporting period would have been negative absent the expense absorption.*

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Short-term municipal securities holdings involve credit and liquidity risks and risk of principal loss.

UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads) and redemption fees, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in General New York AMT-Free Municipal Money Market Fund from June 1, 2018 to November 30, 2018. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

Expenses and Value of a \$1,000 Investment

assuming actual returns for the six months ended November 30, 2018

	Class A	Class B
Expenses paid per \$1,000†	\$ 3.87	\$ 5.67
Ending value (after expenses)	\$ 1,003.70	\$ 1,001.80

COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

Using the SEC's method to compare expenses

The Securities and Exchange Commission ("SEC") has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

Expenses and Value of a \$1,000 Investment

assuming a hypothetical 5% annualized return for the six months ended November 30, 2018

	Class A	Class B
Expenses paid per \$1,000†	\$ 3.90	\$ 5.72
Ending value (after expenses)	\$ 1,021.21	\$ 1,019.40

† Expenses are equal to the fund's annualized expense ratio of .77% for Class A and 1.13% for Class B, multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).

Net Assets			100.0%	146,439,687

^a The Variable Rate shall be determined by the Remarketing Agent in its sole discretion based on prevailing market conditions and may, but need not, be established by reference to one or more financial indices.

^b Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At November 30, 2018, these securities amounted to \$36,625,000 or 25.01% of net assets.

^c The fund does not directly own the municipal security indicated; the fund owns an interest in a special purpose entity that, in turn, owns the underlying municipal security. The special purpose entity permits the fund to own interests in underlying assets, but in a manner structured to provide certain advantages not inherent in the underlying bonds (e.g., enhanced liquidity, yields linked to short-term rates).

^d Inverse floater security—the interest rate is subject to change periodically. Rate shown is the interest rate in effect at November 30, 2018. These Inverse floater securities are not underlying piece for any of the Dreyfus long-term Inverse floater securities.

^a Distributions to shareholders include only distributions from net investment income in 2017. See notes to financial statements.

FINANCIAL HIGHLIGHTS

The following tables describe the performance for each share class for the fiscal periods indicated. All information reflects financial results for a single fund share. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. These figures have been derived from the fund's financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1—Significant Accounting Policies:

General New York AMT-Free Municipal Money Market Fund (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “Act”), as a non-diversified open-end management investment company. The fund’s investment objective is to seek to maximize current income exempt from federal, New York state and New York city income taxes, to the extent consistent with the preservation of capital and the maintenance of liquidity. The Dreyfus Corporation (the “Manager” or “Dreyfus”), a wholly-owned subsidiary of The Bank of New York Mellon Corporation (“BNY Mellon”), serves as the fund’s investment adviser.

MBSC Securities Corporation (the “Distributor”), a wholly-owned subsidiary of Dreyfus, is the distributor of the fund’s shares. The fund is authorized to issue an unlimited number of \$.001 par value shares of Beneficial Interest in each of the following classes of shares: Class A and Class B. Class A and Class B shares are identical except for the services offered to and the expenses borne by each class, the allocation of certain transfer agency costs, and certain voting rights. Class B shares are subject to a Distribution Plan adopted pursuant to Rule 12b-1 under the Act and Class A and Class B shares are subject to a Shareholder Services Plan. In addition, Class B shares are charged directly for sub-accounting services provided by Service Agents (securities dealers, financial institutions or other industry professionals) at an annual rate of .05% of the value of the average daily net assets of Class B shares. During the period ended November 30, 2018, sub-accounting service fees amounted to \$26,113 for Class B shares and are included in Shareholder servicing costs in the Statement of Operations. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

The fund operates as a “retail money market fund” as that term is defined in Rule 2a-7 under the Act (a “Retail Fund”). It is the fund’s policy to maintain a constant net asset value (“NAV”) per share of \$1.00, and the fund has adopted certain investment, portfolio valuation and dividend and distribution policies to enable it to do so. There is no assurance, however, that the fund will be able to maintain a constant NAV per share of \$1.00. As a Retail Fund, the fund may, or in certain circumstances, must impose a fee upon the sale of shares or may temporarily suspend redemptions if the fund’s weekly liquid assets fall below required minimums because of market conditions or other factors.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative U.S. generally accepted accounting principles (“GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (“SEC”) under authority of federal laws are also sources of authoritative GAAP for SEC registrants. The fund’s financial statements are prepared in accordance with GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund’s maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: Investments in securities are valued at amortized cost in accordance with Rule 2a-7 under the Act. If amortized cost is determined not to approximate market value, the fair value of the portfolio securities will be determined by procedures established by and under the general supervision of the fund’s Board of Trustees (the “Board”).

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). GAAP establishes a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Additionally, GAAP provides guidance on determining whether the volume and activity in a market has decreased significantly and whether such a decrease in activity results in transactions that are not orderly. GAAP requires enhanced disclosures around valuation inputs and techniques used during annual and interim periods.

Various inputs are used in determining the value of the fund’s investments relating to fair value measurements. These inputs are summarized in the three broad levels listed below:

Level 1—unadjusted quoted prices in active markets for identical investments.

Level 2—other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3—significant unobservable inputs (including the fund’s own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For example, money market securities are valued using amortized cost, in accordance with rules under the Act. Generally, amortized cost approximates the current fair value of a security, but since the value is not obtained from a quoted price in an active market, such securities are reflected within Level 2 of the fair value hierarchy.

The following is a summary of the inputs used as of November 30, 2018 in valuing the fund’s investments:

Valuation Inputs	Short-Term Investments (\$) [†]
Level 1 - Unadjusted Quoted Prices	-
Level 2 - Other Significant Observable Inputs	140,904,871
Level 3 - Significant Unobservable Inputs	-
Total	140,904,871

[†] See *Statement of Investments for additional detailed categorizations.*

At November 30, 2018, there were no transfers between levels of the fair value hierarchy. It is the fund’s policy to recognize transfers between levels at the end of the reporting period.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and is recognized on the accrual basis. Realized gains and losses from securities transactions are recorded on the identified cost basis.

The fund follows an investment policy of investing primarily in municipal obligations of one state. Economic changes affecting the state and certain of its public bodies and municipalities may affect the ability of issuers within the state to pay interest on, or repay principal of, municipal obligations held by the fund.

(c) Dividends and distributions to shareholders: It is the policy of the fund to declare dividends daily from investment income-net. Such dividends are paid monthly. Dividends from net realized capital gains, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the “Code”). To the extent that net realized capital gains can be offset by

capital loss carryovers, it is the policy of the fund not to distribute such gains.

(d) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax-exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

As of and during the period ended November 30, 2018, the fund did not have any liabilities for any uncertain tax positions. The fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended November 30, 2018, the fund did not incur any interest or penalties.

Each tax year in the four-year period ended November 30, 2018 remains subject to examination by the Internal Revenue Service and state taxing authorities.

At November 30, 2018, the components of accumulated earnings on a tax basis were substantially the same as for financial reporting purposes.

The tax character of distributions paid to shareholders during the fiscal periods ended November 30, 2018 and November 30, 2017 were all tax-exempt income.

At November 30, 2018, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

(e) New Accounting Pronouncements: In March 2017, the FASB issued Accounting Standards Update 2017-08, *Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization On Purchased Callable Debt Securities* (“ASU 2017-08”). The update shortens the amortization period for the premium on certain purchased callable debt securities to the earliest call date. ASU 2017-08 will be effective for annual periods beginning after December 15, 2018.

Also in August 2018, the FASB issued Accounting Standards Update 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”). The update provides guidance that eliminates, adds and modifies certain disclosure requirements for fair value measurements. ASU 2018-13 will be effective for annual periods beginning after December 15, 2019. Management is currently assessing the potential impact of these changes to future financial statements.

NOTE 2—Management Fee and Other Transactions with Affiliates:

(a) Pursuant to a management agreement (the “Agreement”) with Dreyfus, the management fee is computed at the annual rate of .50% of the value of the fund’s average daily net assets and is payable monthly. The Agreement provides that if in any full fiscal year the aggregate expenses of the fund (excluding taxes, brokerage commissions and extraordinary expenses) exceed 1½% of the value of the fund’s average daily net assets, the fund may deduct from payments to be made to Dreyfus, or Dreyfus will bear, such excess expense. During the period ended November 30, 2018, there was no reduction in expenses pursuant to the Agreement.

Dreyfus has also undertaken to waive receipt of the management fee and/or reimburse operating expenses in order to facilitate a daily yield at or above a certain level which may change from time to time. This undertaking is voluntary and not contractual, and may be terminated at any time. The reduction in expenses, pursuant to the undertaking, amounted to \$7,205 during the period ended November 30, 2018.

(b) Under the Distribution Plan with respect to Class B, adopted pursuant to Rule 12b-1 under the Act, Class B shares bear directly the costs of preparing, printing and distributing prospectuses and statements of additional information and of implementing and operating the Distribution Plan, such aggregate amount not to exceed in any fiscal year of the fund the greater of \$100,000 or .005% of the average daily net assets of Class B. In addition, Class B shares reimburse the Distributor for payments made to third parties for distributing its shares at an annual rate not to exceed .20% of the value of its average daily net assets. During the period ended November 30, 2018, Class B shares were charged \$107,867 pursuant to the Distribution Plan.

(c) Under the Shareholder Services Plan with respect to Class A (the “Class A Shareholder Services Plan”), Class A shares reimburse the Distributor at an amount not to exceed an annual rate of .25% of the value of the average daily net assets of its shares for the provision of certain services. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the fund and providing reports and other information, and services related to the maintenance of shareholder accounts. During the period ended November 30, 2018, Class A shares were charged \$77,001 pursuant to the Class A Shareholder Services Plan.

Under the Shareholder Services Plan with respect to Class B (the “Class B Shareholder Services Plan”), Class B shares pay the Distributor at an

annual rate of .25% of the value of the average daily net assets of its shares for the provision of certain services. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the fund and providing reports and other information, and services related to the maintenance of shareholder accounts. The Distributor may make payments to Service Agents with respect to these services. The Distributor determines the amounts to be paid to Service Agents. During the period ended November 30, 2018, Class B shares were charged \$130,564 pursuant to the Class B Shareholder Services Plan.

The fund has arrangements with the transfer agent and the custodian whereby the fund may receive earnings credits when positive cash balances are maintained, which are used to offset transfer agency and custody fees. For financial reporting purposes, the fund includes net earnings credits, if any, as an expense offset in the Statement of Operations.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of Dreyfus, under a transfer agency agreement for providing transfer agency and cash management services for the fund. The majority of transfer agency fees are comprised of amounts paid on a per account basis, while cash management fees are related to fund subscriptions and redemptions. During the period ended November 30, 2018, the fund was charged \$34,109 for transfer agency services. These fees are included in Shareholder servicing costs in the Statement of Operations.

The fund compensates The Bank of New York Mellon, a subsidiary of BNY Mellon and an affiliate of Dreyfus, under a custody agreement for providing custodial services for the fund. These fees are determined based on net assets, geographic region and transaction activity. During the period ended November 30, 2018, the fund was charged \$10,184 pursuant to the custody agreement. These fees were partially offset by earnings credits of \$1,376.

The fund compensates The Bank of New York Mellon under a shareholder redemption draft processing agreement for providing certain services related to the fund's check writing privilege. During the period ended November 30, 2018, the fund was charged \$1,096 pursuant to the agreement, which is included in Shareholder servicing costs in the Statement of Operations. These fees were partially offset by earnings credits of \$1.

During the period ended November 30, 2018, the fund was charged \$12,780 for services performed by the Chief Compliance Officer and his

staff. These fees are included in Miscellaneous in the Statement of Operations.

The components of “Due to The Dreyfus Corporation and affiliates” in the Statement of Assets and Liabilities consist of: management fees \$60,524 Distribution Plan fees \$9,875, Shareholder Services Plan fees \$14,806, custodian fees \$3,428, Chief Compliance Officer fees \$5,241 and transfer agency fees \$3,962.

(d) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

NOTE 3—Securities Transactions:

The fund is permitted to purchase or sell securities from or to certain affiliated funds under specified conditions outlined in procedures adopted by the Board. The procedures have been designed to ensure that any purchase or sale of securities by the fund from or to another fund or portfolio that are, or could be, considered an affiliate by virtue of having a common investment adviser (or affiliated investment adviser), common Trustees and/or common officers, complies with Rule 17a-7 under the Act. During the period ended November 30, 2018, the fund engaged in purchases and sales of securities pursuant to Rule 17a-7 under the Act amounting to \$16,100,000 and \$23,615,000 respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Trustees of General New York AMT-Free Municipal Money Market Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of General New York AMT-Free Municipal Money Market Fund (the “Fund”), including the statement of investments, as of November 30, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund at November 30, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of November 30, 2018, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more Dreyfus investment companies since at least 1957, but we are unable to determine the specific year.

New York, New York
January 28, 2019

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby reports all the dividends paid from investment income-net during its fiscal year ended November 30, 2018 as “exempt-interest dividends” (not subject to regular federal income tax, and for individuals who are New York residents, New York State and New York City personal income taxes). Where required by federal tax law rules, shareholders will receive notification of their portion of the fund’s exempt-interest dividends paid for the 2018 calendar year on Form 1099-DIV, which will be mailed in early 2019.

INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited)

At a meeting of the fund's Board of Trustees held on July 31, 2018, the Board considered the renewal of the fund's Management Agreement pursuant to which Dreyfus provides the fund with investment advisory and administrative services (the "Agreement"). The Board members, none of whom are "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund, were assisted in their review by independent legal counsel and met with counsel in executive session separate from Dreyfus representatives. In considering the renewal of the Agreement, the Board considered all factors that it believed to be relevant, including those discussed below. The Board did not identify any one factor as dispositive, and each Board member may have attributed different weights to the factors considered.

Analysis of Nature, Extent, and Quality of Services Provided to the Fund. The Board considered information provided to them at the meeting and in previous presentations from Dreyfus representatives regarding the nature, extent, and quality of the services provided to funds in the Dreyfus fund complex. Dreyfus provided the number of open accounts in the fund, the fund's asset size and the allocation of fund assets among distribution channels. Dreyfus also had previously provided information regarding the diverse intermediary relationships and distribution channels of funds in the Dreyfus fund complex (such as retail direct or intermediary, in which intermediaries typically are paid by the fund and/or Dreyfus) and Dreyfus' corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to each intermediary or distribution channel, as applicable to the fund.

The Board also considered research support available to, and portfolio management capabilities of, the fund's portfolio management personnel and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board also considered Dreyfus' extensive administrative, accounting and compliance infrastructures.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board reviewed reports prepared by Broadridge Financial Solutions, Inc. ("Broadridge"), an independent provider of investment company data, which included information comparing (1) the fund's performance with the performance of a group of comparable funds (the "Performance Group") and with a broader group of funds (the "Performance Universe"), all for various periods ended June 30, 2018, and (2) the fund's actual and contractual management fees and total expenses with those of a group of comparable funds (the "Expense Group") and with a broader group of funds (the "Expense Universe"), the information for which was derived in part from fund financial statements available to Broadridge as of the date of its analysis. Dreyfus previously had furnished the Board with a description of the methodology Broadridge used to select the Performance Group and Performance Universe and the Expense Group and Expense Universe.

Dreyfus representatives stated that the usefulness of performance comparisons may be affected by a number of factors, including different investment limitations and policies

that may be applicable to the fund and comparison funds. The Board discussed with representatives of Dreyfus and/or its affiliates the results of the comparisons and considered that the fund's total return performance was below the Performance Group and Performance Universe medians for all periods, except for the ten-year period when the fund's performance was at the Performance Group median. The Board considered the relative proximity of the fund's performance to the Performance Group and/or Performance Universe median in certain periods when performance was below median. It was noted that there were only four other funds in the Performance Group.

The Board also reviewed the range of actual and contractual management fees and total expenses of the Expense Group and Expense Universe funds and discussed the results of the comparisons. The Board considered that the fund's contractual management fee was above the Expense Group median and the fund's actual management fee and total expenses were above the Expense Group and Expense Universe medians.

The Board also considered the current fee waiver and expense reimbursement arrangement undertaken by Dreyfus.

Dreyfus representatives reviewed with the Board the management or investment advisory fees paid by funds advised or administered by Dreyfus that are in the same Lipper category as the fund (the "Similar Funds"), and explained the nature of the Similar Funds. They discussed differences in fees paid and the relationship of the fees paid in light of any differences in the services provided and other relevant factors. The Board considered the relevance of the fee information provided for the Similar Funds to evaluate the appropriateness of the fund's management fee.

Analysis of Profitability and Economies of Scale. Dreyfus representatives reviewed the expenses allocated and profit received by Dreyfus and its affiliates and the resulting profitability percentage for managing the fund and the aggregate profitability percentage to Dreyfus and its affiliates for managing the funds in the Dreyfus fund complex, and the method used to determine the expenses and profit. The Board concluded that the profitability results were not unreasonable, given the services rendered and service levels provided by Dreyfus. The Board also considered the fee waiver and expense reimbursement arrangement and its effect on the profitability of Dreyfus and its affiliates. The Board also had been provided with information prepared by an independent consulting firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus fund complex. The consulting firm also had analyzed where any economies of scale might emerge in connection with the management of a fund.

The Board considered, on the advice of its counsel, the profitability analysis (1) as part of its evaluation of whether the fees under the Agreement, considered in relation to the mix of services provided by Dreyfus, including the nature, extent and quality of such services, supported the renewal of the Agreement and (2) in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund shareholders. Dreyfus representatives stated that a discussion of

INFORMATION ABOUT THE RENEWAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited) *(continued)*

economies of scale is predicated on a fund having achieved a substantial size with increasing assets and that, if a fund's assets had been stable or decreasing, the possibility that Dreyfus may have realized any economies of scale would be less. Dreyfus representatives also stated that, as a result of shared and allocated costs among funds in the Dreyfus fund complex, the extent of economies of scale could depend substantially on the level of assets in the complex as a whole, so that increases and decreases in complex-wide assets can affect potential economies of scale in a manner that is disproportionate to, or even in the opposite direction from, changes in the fund's asset level. The Board also considered potential benefits to Dreyfus from acting as investment adviser and took into consideration that there were no soft dollar arrangements in effect for trading the fund's investments.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to the renewal of the Agreement. Based on the discussions and considerations as described above, the Board concluded and determined as follows.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus are adequate and appropriate.
- While the Board expressed some concern about the fund's relative performance, the Board accepted the performance in light of the considerations described above.
- The Board concluded that the fee paid to Dreyfus continued to be appropriate under the circumstances and in light of the factors and the totality of the services provided as discussed above.
- The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the fee rate charged to the fund pursuant to the Agreement and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

In evaluating the Agreement, the Board considered these conclusions and determinations and also relied on its previous knowledge, gained through meetings and other interactions with Dreyfus and its affiliates, of Dreyfus and the services provided to the fund by Dreyfus. The Board also relied on information received on a routine and regular basis throughout the year relating to the operations of the fund and the investment management and other services provided under the Agreement, including information on the investment performance of the fund in comparison to similar mutual funds and benchmark performance measures; general market outlook as applicable to the fund; and compliance reports. In addition, the Board's consideration of the contractual fee arrangements for this fund had the benefit of a number of years of reviews of the Agreement for the fund, or substantially similar agreements for other

Dreyfus funds that the Board oversees, during which lengthy discussions took place between the Board and Dreyfus representatives. Certain aspects of the arrangements may receive greater scrutiny in some years than in others, and the Board's conclusions may be based, in part, on their consideration of the fund's arrangements, or substantially similar arrangements for other Dreyfus funds that the Board oversees, in prior years. The Board determined to renew the Agreement.

BOARD MEMBERS INFORMATION (Unaudited)

INDEPENDENT BOARD MEMBERS

Joseph S. DiMartino (75) **Chairman of the Board (1995)**

Principal Occupation During Past 5 Years:

- Corporate Director and Trustee (1995-present)

Other Public Company Board Memberships During Past 5 Years:

- CBIZ (formerly, Century Business Services, Inc.), a provider of outsourcing functions for small and medium size companies, Director (1997-present)

No. of Portfolios for which Board Member Serves: 123

Francine J. Bovich (67) **Board Member (2012)**
