Goal/Approach

The fund seeks to maximize current income exempt from federal income tax and from Pennsylvania income tax, while mitigating undue risk.

To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in municipal bonds that provide income exempt from federal and Pennsylvania state income taxes. The fund invests at least 70% of its assets in municipal bonds rated, at the time of purchase, investment grade or the unrated equivalent as determined by The Dreyfus Corporation. For additional yield, the fund may invest up to 30% of its assets in municipal bonds rated below investment grade or the unrated equivalent as determined by The Dreyfus Corporation.

Growth of a \$10,000 Investment¹

A hypothetical \$10,000 investment in the fund's Class A shares on 7/30/87 would have been worth \$52,063 on 9/30/18.

This does not reflect the 4.50% maximum front-end sales load applicable to Class A shares which, if reflected, would have lowered performance. Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. For funds with less than 1 year's history, year-to-date and 3-month performance are not annualized. Go to dreyfus.com for the fund's most recent month-end returns. Total Expense Ratios: Class A 0.98%, Class C 1.76%, Class Z 0.76%.

Class Z shares are generally not available for new accounts, but may be available in certain existing wrap accounts.

¹Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. ²Portfolio composition is as of 9/30/18 and is subject to change at any time. ³Duration is a measure of volatility expressed in years. The higher the number, the greater the potential for volatility as interest rates change. ⁴Calendar year figures would be lower if max. sales load was reflected. Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁵Source: FactSet, Inc. The Bloomberg Barclays U.S. Municipal Bond Index covers the USD-denominated long-term tax-exempt bond market. Investors cannot invest directly in any index. Tax advantaged investments typically are not suitable for qualified plans, such as 401(k)s.

¹Portfolio composition is as of 9/30/18 and is subject to change at any time. ²Bond ratings reflect the rating entity's evaluation of the issuer's ability to pay interest and repay principal on the bond on a timely basis. Bonds rated BBB/Baa or higher are considered investment grade, while bonds rated BB/Ba or lower are considered speculative as to the timely payment of interest and principal. ³Credit ratings reflect only those assigned by S&P, Moody's, and/or Fitch. Split-rated bonds, if any, are reported in the higher rating category.

Risks

Bonds are subject to interest-rate, credit, liquidity, call and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes and rate increases can cause price declines. **High yield bonds** involve increased credit and liquidity risk than higher-rated bonds and are considered speculative in terms of the issuer's ability to pay interest and repay principal on a timely basis. **Municipal income** may be subject to state and local taxes for out-of-state residents. Some income may be subject to the federal alternative minimum tax for certain investors. Capital gains, if any, are taxable.
