

Dreyfus Japan Womenomics Fund

Oct 31
2018

Class I DJWIX Class Y DJWYX

Goal/Approach

The fund seeks long-term capital growth. To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in securities of companies listed or principally traded on a recognized stock exchange in Japan that, in the view of the fund's sub-adviser, benefit from the "Womenomics" initiative in Japan. This initiative seeks to enhance economic growth through the general economic empowerment of women and includes efforts to ease barriers to female employment outside the home, promote women to leadership positions, and close the gender pay gap. The fund invests principally in common stocks, and may invest in the stocks of companies with any market capitalization.

Growth of a \$10,000 Investment

A hypothetical \$10,000 investment in the fund's Class I shares on 9/13/18 would have been worth \$10,376 on 9/30/18.

Assumes reinvestment of dividends and capital gains. Performance for the fund's other share classes would vary.

TOTAL RETURNS (10/31/18)¹

Share Class/Inception Date	1M	Inception as of 09/30/18
Class I (NAV) 09/13/18	-9.87%	3.76%
Class Y (NAV) 09/13/18	-9.87%	3.76%
TOPIX [®] Total Return Index ⁴	-8.83%	—

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. For funds with less than 1 year's history, performance is not annualized. Go to dreyfus.com for the fund's most recent month-end returns. The net expense ratio(s) reflect a contractual expense reduction agreement through 09/01/2019. Total Expense Ratios: Class I 1.15%, Class Y 1.15%. Net Expense Ratios: Class I 1.00%, Class Y 1.00%.

¹Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, class restrictions, anticipated holding period and other relevant factors. ²Portfolio composition is as of 10/31/18 and is subject to change at any time. ³Redemption Fee on all shares redeemed within 60 days of purchase. This fee is retained by the fund. (Not charged on shares sold through Auto Withdrawal or Auto-Exchange, or on shares acquired through dividend reinvestment.) Please see the fund's SAI for more details. ⁴Source: FactSet. The TOPIX[®] Total Return Index is a market capitalization-weighted index consisting of all stocks traded on the First Section of the Tokyo Stock Exchange. Investors cannot invest directly in any index.

The holdings listed should not be considered recommendations to buy or sell a security. Large concentrations can increase share price volatility.

Investors should consider the investment objectives, risks, charges and expenses of a mutual fund carefully before investing. To obtain a prospectus, or a summary prospectus, if available, that contains this and other information about a Dreyfus fund, contact your financial advisor or visit dreyfus.com. Read the prospectus carefully before investing. Investors should discuss with their advisor the eligibility requirements for Class I and Y shares, which are available only to certain eligible investors, and the historical results achieved by the fund's respective share classes.

The Dreyfus Corporation, BNY Mellon Asset Management Japan Limited and MBSC Securities Corporation are affiliated with The Bank of New York Mellon Corporation.

Risks

Equities are subject to market, market sector, market liquidity, issuer, and investment style risks, to varying degrees. Investing in **foreign denominated and/or domiciled securities** involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries. The fund's performance will be influenced by political, social and economic factors affecting **Japan**. As a result, the fund's performance could be more volatile than that of more geographically diversified mutual funds. The sub-adviser's investment approach may cause the fund to perform differently than mutual funds that invest in equity securities of Japanese companies, but that do not take into consideration the initiative in Japan to promote the general economic empowerment of women when selecting stocks for investment.

The information being provided is general information about our firm and its products and services. It should not be construed as investment advice or a recommendation with respect to any product or service. Please consult a legal, tax or investment advisor in order to determine whether an investment product or service is appropriate for a particular situation.
