

Dreyfus Short-Intermediate Municipal Bond Fund

Pursuing the best risk-adjusted values across the municipal market

Sep 30
2018

Class I DIMIX Class Y DMYBX

Goal/Approach

The fund seeks to maximize current income exempt from federal income tax to the extent consistent with the preservation of capital.

Accordingly, the fund normally invests substantially all of its net assets in municipal bonds that provide income exempt from federal personal income tax. The fund invests only in municipal bonds rated investment grade. The fund invests primarily in municipal bonds with remaining maturities of five years or less and generally maintains a dollar-weighted average portfolio maturity of two to three years.

The performance data quoted represents past performance, which is no guarantee of future results. Share price and investment return fluctuate and an investor's shares may be worth more or less than original cost upon redemption. Current performance may be lower or higher than the performance quoted. For funds with less than 1 year's history, year-to-date and 3-month performance are not annualized. Go to dreyfus.com for the fund's most recent month-end returns. The net expense ratio(s) reflect a contractual expense reduction agreement through 08/01/2019. Total Expense Ratios: Class I 0.44%, Class Y 0.52%. Net Expense Ratios: Class I 0.39%, Class Y 0.39%. 30-day yields reflect undertaking in effect, without which the Fund's 30-day yield for Class I and Y shares would have been 1.68% and 1.57%, respectively, as of 09/30/18.

¹The total return performance figures for Class I and Class Y shares of the fund represent the performance of the fund's Class D shares for periods prior to 12/15/08 and 07/01/13, the inception dates for Class I and Class Y shares, respectively, and the performance of Class I and Class Y shares, respectively, from those inception dates. Performance reflects the applicable class' distribution/servicing fees since the inception date. Investors should consider, when deciding whether to purchase a particular class of shares, the investment amount, anticipated holding period and other relevant factors. ²Portfolio composition is as of 9/30/18 and is subject to change at any time. ³Duration is a measure of volatility expressed in years. The higher the number, the greater the potential for volatility as interest rates change. ⁴Performance figures may reflect reimbursements or fee waivers, without which the performance would have been lower. ⁵Source: FactSet, Inc. The Bloomberg Barclays Municipal: 3 Year Index (2-4) covers the USD-denominated 2-4 year tax-exempt bond market. Investors cannot invest directly in any index. Tax advantaged investments typically are not suitable for qualified plans, such as 401(k)s.

¹Portfolio composition is as of 9/30/18 and is subject to change at any time. ²Bond ratings reflect the rating entity's evaluation of the issuer's ability to pay interest and repay principal on the bond on a timely basis. Bonds rated BBB/Baa or higher are considered investment grade, while bonds rated BB/Ba or lower are considered speculative as to the timely payment of interest and principal. ³Credit ratings reflect only those assigned by S&P, Moody's, and/or Fitch. Split-rated bonds, if any, are reported in the higher rating category.

Risks

Bonds are subject to interest-rate, credit, liquidity, call and market risks, to varying degrees. Generally, all other factors being equal, bond prices are inversely related to interest-rate changes and rate increases can cause price declines. The fund is **non-diversified**, which means the fund may invest in a relatively high percentage of its assets in a limited number of issuers. Performance may be more vulnerable to changes in the market of a single issuer. **Municipal income** may be subject to state and local taxes. Some income may be subject to the federal alternative minimum tax for certain investors. Capital gains, if any, are taxable.
