# BNY MELLON LARGE CAP MARKET OPPORTUNITIES FUND – CLASS M

## Goal/Approach

The fund seeks long term-term capital appreciation.

To pursue its goal, the fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of large cap companies. The fund currently considers large cap companies those with total market capitalizations of \$5 billion or more at time of purchase. The fund is designed to provide exposure to various large cap equity portfolio managers, investment strategies and styles. The fund's investment adviser monitors portfolio trading activity within the investment strategies to promote tax efficiency and avoid wash sale transactions. The fund invests directly in securities or in other mutual funds advised by the fund's investment adviser or its affiliates, referred to as underlying funds, which in turn may invest directly in securities. Allocations, subject to change at the discretion of the fund's portfolio manager, include the following underlying strategies.

1. Focused Equity Strategy (Target: 38%; Range: 0% to 50%). Donald M. Sauber and Thomas Lee, members of the large cap equity team at BNY Mellon Wealth Management and employees of The Dreyfus Corporation (Dreyfus), are the primary portfolio managers of this strategy. This strategy invests in approximately 25-30 companies that are considered by the portfolio manager to be positioned for long-term earnings growth.

2. U.S. Large Cap Equity Strategy (Target: 10%; Range: 0% to 50%). This strategy, managed by Walter Scott & Partners Limited, is invested in companies with fundamental strengths that indicate the potential for sustainable growth.

3. Dynamic Large Cap Value Strategy (Target: 14%; Range: 0% to 50%). Brian C. Ferguson is the primary manager for the strategy, a position he has held since the strategy's inception. This strategy invests primarily in large cap securities that are viewed as attractive from three key areas: value, sound business fundamentals and positive business momentum. The port of the fund's assets allocated to the Dynamic Large Cap Value Strategy also may be invested in Dreyfus Strategic Value Fund, a mutual fund advised by The Dreyfus Corporation and co-managed by the same portfolio manager responsible for the fund's Dynamic Large Cap Value Strategy using substantially similar investment strategies as those used in managing this portion of the fund's assets.

4. U.S. Large Cap Growth Strategy (Target: 27%; Range: 0% to 50%). This strategy is managed by members of the Core Research team of BNYM AMNA. This strategy normally is invested primarily in equity securities of companies of any market capitalization, although the strategy focuses on large cap U.S. companies, and also may be invested in Dreyfus Research Growth Fund, Inc., a mutual fund advised by The Dreyfus Corporation and co-managed by the same portfolio manager responsible for the fund's U.S. Large Cap Growth Strategy using substantially similar investment strategies as those used in managing this portion of the fund's assets. The sector weightings of this strategy generally are similar to those of the Russell 1000® Growth Index.

5. Income Stock Strategy (Target: 11%; Range 0% to 50%). John C. Bailer, dual employee of The Boston Company Asset Management, LLC (BNYM AMNA) and Dreyfus, is BNY Mellon Income Stock Fund's primary portfolio manager. This portion of the fund's assets is invested in BNY Mellon

Income Stock Fund, a mutual fund advised by the fund's investment adviser. The underlying fund focuses on dividend-paying stocks and other investment techniques that provide income, selected through a disciplined investment process that combines modeling techniques, fundamental analysis and risk management.

The fund currently has no allocation to the following strategies:

1. Large Cap Growth Strategy (Range: 0% to 50%).
2. Appreciation Strategy (Range: 0% to 50%).
3. Large Cap Dividend Strategy (Range: 0% to 50%).

## Portfolio Management

The investment adviser for the fund is BNY Mellon Fund Advisers, a division of The Dreyfus Corporation.

Caroline Lee has been the fund's primary portfolio manager responsible for investment allocation since December 2015. She is a senior investment strategist for BNY Mellon Wealth Management and manages the fund as an employee of The Dreyfus Corporation. Ms. Lee has been employed by The Bank of New York Mellon since August 2013. She has also been employed by Dreyfus since December 2015.

## Certain Risks

Equity funds are subject generally to market, market sector, market liquidity, issuer, and investment style risks, among the other factors, to varying degrees, all of which are more fully described in the fund's prospectus.

Please refer to the prospectus for a more complete discussion of the fund's main risks.

**Investors should consider the investment objectives, risks, charges, and expenses of the fund carefully before investing. Contact your financial advisor to obtain a prospectus, or a summary prospectus, if available, that contains this and other information about the fund, and read it carefully before investing.**
