# Fund Summary

## Investment Objective

---

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

## Fees and Expenses

---

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund.

---

<b>Annual Fund Operating Expenses</b> (expenses that you pay each year as a percentage of the value of your investment)	
Management fees	.10
Other expenses (including administrative services fees)*	.10
<b>Total annual fund operating expenses</b>	<b>.20</b>

---

\* *The fund's investment adviser, The Dreyfus Corporation, has agreed in its investment management agreement with the fund to: (1) pay all of the fund's expenses, except management fees, fees pursuant to any administrative services plan adopted by the fund and certain other expenses, including the fees and expenses of the non-interested board members and their counsel, and (2) reduce its fees pursuant to the investment management agreement in an amount equal to the fund's allocable portion of the fees and expenses of the non-interested board members and their counsel (in the amount of less than 0.01% for the past fiscal year). These provisions in the investment management agreement may not be amended without the approval of the fund's shareholders.*

## Example

The Example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the fund for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

---

<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
\$20	\$64	\$113	\$255

---

## Principal Investment Strategy

---

To pursue its goal, the fund normally invests in a diversified portfolio of high quality, short-term, dollar-denominated debt securities, including: securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities; certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic or foreign banks or thrifts or their subsidiaries or branches; repurchase agreements, including tri-party repurchase agreements; asset-backed securities; municipal securities; domestic and dollar-denominated foreign commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest; and dollar-denominated foreign government obligations. The fund's investments are concentrated in the banking industry, because the fund normally invests at least 25% of its assets in domestic or dollar-denominated foreign bank obligations.

The fund is a money market fund subject to the maturity, quality, liquidity and diversification requirements of Rule 2a-7 under the Investment Company Act of 1940, as amended, and seeks to maintain a stable share price of \$1.00.

## Principal Risks

---

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The fund's yield will fluctuate as the short-term securities in its portfolio mature or are sold and the proceeds are reinvested in securities with different interest rates. The fund may impose a fee upon the sale of your shares (a "liquidity fee") or may temporarily suspend your ability to sell shares (a redemption "gate") if the fund's liquidity falls below required minimums because of market conditions or other factors. Neither The Dreyfus Corporation nor its affiliates have a legal obligation to provide financial support to the fund, and you should not expect that The Dreyfus Corporation or its affiliates will provide financial support to the fund at any time. The following are the principal risks that could reduce the fund's income level and/or share price:

- *Interest rate risk.* This risk refers to the decline in the prices of fixed-income securities that may accompany a rise in the overall level of interest rates. A sharp and unexpected rise in interest rates could impair the fund's ability to maintain a stable net asset value. A low interest rate environment may prevent the fund from providing a positive yield or paying fund expenses out of fund assets and could impair the fund's ability to maintain a stable net asset value.
- *Liquidity risk.* When there is little or no active trading market for specific types of securities, it can become more difficult to sell the securities in a timely manner at or near their perceived value. In such a market, the value of such securities may fall dramatically, potentially impairing the fund's ability to maintain a stable net asset value, even during periods of declining interest rates.
- *Credit risk.* Failure of an issuer of a security to make timely interest or principal payments when due, or a decline or perception of a decline in the credit quality of a security, can cause the security's price to fall. Although the fund invests only in high quality debt securities, the credit quality of the securities held by the fund can change rapidly in certain market environments, and the default or a significant price decline of a single holding could impair the fund's ability to maintain a stable net asset value.
- *Liquidity fee and/or redemption gate risk.* The fund may impose a fee upon the sale of your shares (a "liquidity fee") or may temporarily suspend your ability to sell shares (a redemption "gate") if the fund's liquidity falls below required minimums because of unusual market conditions, an unusually high volume of redemption requests, redemptions by a few large investors, or other reasons. If a liquidity fee is imposed by the fund, it would reduce the amount you will receive upon the redemption of your shares. A "gate" will suspend your ability to redeem your shares while the gate is imposed and may prevent the fund from being able to pay redemption proceeds within the allowable time period stated in this prospectus.
- *Banking industry risk.* The risks generally associated with concentrating investments in the banking industry include interest rate risk, credit risk, and regulatory developments relating to the banking industry.
- *Foreign investment risk.* The risks generally associated with dollar-denominated foreign investments include economic and political developments, seizure or nationalization of deposits, imposition of taxes or other restrictions on payment of principal and interest.
- *U.S. Treasury securities risk.* A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity, but the market prices for such securities are not guaranteed and will fluctuate.
- *Government securities risk.* Not all obligations of the U.S. government, its agencies and instrumentalities are backed by the full faith and credit of the U.S. Treasury. Some obligations are backed only by the credit of the issuing agency or instrumentality, and in some cases there may be some risk of default by the issuer. Any guarantee by the U.S. government or its agencies or instrumentalities of a security held by the fund does not apply to the market value of such security or to shares of the fund itself. A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity.
- *Repurchase agreement counterparty risk.* The fund is subject to the risk that a counterparty in a repurchase agreement and/or, for a tri-party repurchase agreement, the third party bank providing payment administration, collateral custody and management services for the transaction, could fail to honor the terms of the agreement.
- *Municipal securities risk.* Municipal securities may be fully or partially backed or enhanced by the taxing authority of a local government, by the current or anticipated revenues from a specific project or specific assets, or by the credit of, or liquidity enhancement provided by, a private issuer. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or the fund's ability to maintain a stable net asset value.

## Performance

The following bar chart and table provide some indication of the risks of investing in the fund. Effective August 31, 2017, the fund issued to each holder of its Citizens shares, in exchange for such shares, Class A shares of the fund having an aggregate net asset value equal to the aggregate net asset value of the shareholder's Citizens shares. The fund no longer offers Citizens shares. The bar chart shows changes in the performance of the fund's shares from year to year. The table shows the average annual total returns of the fund's shares over time. For periods prior to March 1, 2016 (the inception date of Class A shares), the performance of the fund's former Citizens shares is shown. The fund's past performance is not necessarily an indication of how the fund will perform in the future. More recent performance information may be available at [www.dreyfus.com](http://www.dreyfus.com).

Class A shares would have had substantially similar annual returns as the fund's Citizens shares, because each share class was invested in the same portfolio of securities and the annual returns would have differed only to the extent that the classes do not have the same expenses. The performance figures shown have not been adjusted to reflect applicable class fees and expenses.

### Year-by-Year Total Returns as of 12/31 each year (%)

The year-to-date total return of the fund's shares as of June 30, 2018 was 0.82%.

### Average Annual Total Returns as of 12/31/17

1 Year	5 Years	10 Years
1.02%	0.28%	0.47%

For the fund's current yield call toll-free 1-800-DREYFUS (inside the U.S. only).

## Portfolio Management

The fund's investment adviser is The Dreyfus Corporation.

## Purchase and Sale of Fund Shares

Investments in the fund are limited to accounts beneficially owned by natural persons.

In general, the fund's minimum initial investment is \$1 million, with no minimum subsequent investment. A financial intermediary may establish an account in the fund on behalf of one or more natural persons with a minimum of \$1 million in the fund or \$500 million invested in the aggregate in funds in the Dreyfus Family of Funds. You may sell (redeem) your shares on any business day by calling 1-800-DREYFUS (inside the U.S. only) or by visiting [www.dreyfus.com](http://www.dreyfus.com). If you invested in the fund through a third party, such as a bank, broker-dealer or financial adviser, or through a Retirement Plan (as defined below), you may mail your request to sell shares to Dreyfus Institutional Department, P.O. Box 9882, Providence, Rhode Island 02940-8082. If you invested directly through the fund, you may mail your request to sell shares to Dreyfus Shareholder Services, P.O. Box 9879, Providence, Rhode Island 02940-8079. Retirement Plans include qualified or non-qualified employee benefit plans, such as 401(k), 403(b)(7), Keogh, pension, profit-sharing and other deferred compensation plans, whether established by corporations, partnerships, sole proprietorships, non-profit entities, trade or labor unions, or state and local governments, but do not include IRAs (including, without limitation, traditional IRAs, Roth IRAs, Coverdell Education Savings Accounts, IRA "Rollover

Accounts" or IRAs set up under Simplified Employee Pension Plans (SEP-IRAs), Salary Reduction Simplified Employee Pension Plans (SARSEPs) or Savings Incentive Match Plans for Employees (SIMPLE IRAs)).

## **Tax Information**

---

The fund's distributions are taxable as ordinary income or capital gains, except when your investment is through an IRA, Retirement Plan or other U.S. tax-advantaged investment plan (in which case you may be taxed upon withdrawal of your investment from such account).

## **Payments to Broker-Dealers and Other Financial Intermediaries**

---

If you purchase shares through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. To the extent that the intermediary may receive lesser or no payments in connection with the sale of other investments, the payments from the fund and its related companies may create a potential conflict of interest by influencing the broker-dealer or other intermediary and your financial representative to recommend the fund over the other investments. This potential conflict of interest may be addressed by policies, procedures or practices adopted by the financial intermediary. As there may be many different policies, procedures or practices adopted by different intermediaries to address the manner in which compensation is earned through the sale of investments or the provision of related services, the compensation rates and other payment arrangements that may apply to a financial intermediary and its representatives may vary by intermediary. Ask your financial representative or visit your financial intermediary's website for more information.

# Fund Details

## Goal and Approach

---

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue its goal, the fund normally invests in a diversified portfolio of high quality, short-term, dollar-denominated debt securities, including:

- securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic or foreign banks or thrifts or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- municipal securities
- domestic and dollar-denominated foreign commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest
- dollar-denominated foreign government obligations

The fund's investments are concentrated in the banking industry, because the fund normally invests at least 25% of its assets in domestic or dollar-denominated foreign bank obligations.

The fund is a money market fund subject to the maturity, quality, liquidity and diversification requirements of Rule 2a-7 under the Investment Company Act of 1940, as amended, and seeks to maintain a stable share price of \$1.00.

Among other requirements, the fund is limited to investing in high quality securities that The Dreyfus Corporation has determined present minimal credit risks. The fund is required to hold at least 30% of its assets in cash, U.S. Treasury securities, certain other government securities with remaining maturities of 60 days or less, or securities that can readily be converted into cash within five business days. The fund also is required to hold at least 10% of its assets in cash, U.S. Treasury securities or securities that can readily be converted into cash within one business day. The fund must maintain an average dollar-weighted portfolio maturity of 60 days or less and a maximum weighted average life to maturity of 120 days. In response to liquidity needs or unusual market conditions, the fund may hold all or a significant portion of its total assets in cash for temporary defensive purposes. This may result in a lower current yield and prevent the fund from achieving its investment objective.

## Investment Risks

---

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The fund's yield will fluctuate as the short-term securities in its portfolio mature or are sold and the proceeds are reinvested in securities with different interest rates. The fund may impose a fee upon the sale of your shares (a "liquidity fee") or may temporarily suspend your ability to sell shares (a redemption "gate") if the fund's liquidity falls below required minimums because of market conditions or other factors. Neither The Dreyfus Corporation nor its affiliates have a legal obligation to provide financial support to the fund, and you should not expect that The Dreyfus Corporation or its affiliates will provide financial support to the fund at any time. The following are the principal risks that could reduce the fund's income level and/or share price:

- *Interest rate risk.* Prices of fixed-income securities tend to move inversely with changes in interest rates. Interest rate risk refers to the decline in the prices of fixed-income securities that may accompany a rise in the overall level of interest rates. Risks associated with rising interest rates are heightened given that the Federal Reserve has raised the

federal funds rate several times in recent periods and has signaled additional increases in the near future. A sharp and unexpected rise in interest rates could impair the fund's ability to maintain a stable net asset value. A low interest rate environment may prevent the fund from providing a positive yield or paying fund expenses out of fund assets and could impair the fund's ability to maintain a stable net asset value.

- *Liquidity risk.* When there is little or no active trading market for specific types of securities, it can become more difficult to sell the securities in a timely manner at or near their perceived value. In such a market, the value of such securities may fall dramatically, potentially impairing the fund's ability to maintain a stable net asset value, even during periods of declining interest rates. To meet redemption requests, the fund may be forced to sell securities at an unfavorable time and/or under unfavorable conditions, which may impair the fund's ability to maintain a stable net asset value.
- *Credit risk.* Failure of an issuer of a security to make timely interest or principal payments when due, or a decline or perception of a decline in the credit quality of a security, can cause the security's price to fall, lowering the value of the fund's investment in such security. Although the fund invests only in high quality debt securities, any of the fund's holdings could have its credit rating downgraded or could default. The credit quality and prices of the securities held by the fund can change rapidly in certain market environments, and the default or a significant price decline of a single holding could impair the fund's ability to maintain a stable net asset value.
- *Liquidity fee and/or redemption gate risk.* The fund may impose a fee upon the sale of your shares (a "liquidity fee") or may temporarily suspend your ability to sell shares (a redemption "gate") if the fund's liquidity falls below required minimums because of unusual market conditions, an unusually high volume of redemption requests, redemptions by a few large investors, or other reasons. If a liquidity fee is imposed by the fund, it would reduce the amount you will receive upon the redemption of your shares. A "gate" will suspend your ability to redeem your shares while the gate is imposed and may prevent the fund from being able to pay redemption proceeds within the allowable time period stated in this prospectus. If the fund receives a liquidity fee, it is possible that it may return the fee to shareholders in the form of a distribution at a later time. When a fee or a gate is in place, the fund may elect to stop selling shares or to impose additional conditions on the purchase of shares.
- *Banking industry risk.* The risks generally associated with concentrating investments in the banking industry include interest rate risk, credit risk, and regulatory developments relating to the banking industry such as extensive governmental regulation and/or nationalization that affects the scope of their activities, the prices they can charge and the amount of capital they must maintain; adverse effects on profitability due to increases in interest rates or loan losses; severe price competition; and increased inter-industry consolidation and competition.
- *Foreign investment risk.* The risks generally associated with dollar-denominated foreign investments include economic and political developments, seizure or nationalization of deposits, imposition of taxes or other restrictions on payment of principal and interest. Additional risks associated with investments in foreign issuers include less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political and economic instability and differing auditing and legal standards. Some sovereign obligors have been among the world's largest debtors to commercial banks, other governments, international financial organizations and other financial institutions. These obligors, in the past, may have experienced substantial difficulties in servicing their external debt obligations, which led to defaults on certain obligations and the restructuring of certain indebtedness.
- *U.S. Treasury securities risk.* A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity, but the market prices for such securities are not guaranteed and will fluctuate. Because U.S. Treasury securities trade actively outside the United States, their prices may rise and fall as changes in global economic conditions affect the demand for these securities. In addition, such guarantees do not extend to shares of the fund itself.
- *Government securities risk.* Not all obligations of the U.S. government, its agencies and instrumentalities are backed by the full faith and credit of the U.S. Treasury. Some obligations are backed only by the credit of the issuing agency or instrumentality, and in some cases there may be some risk of default by the issuer. Any guarantee by the U.S. government or its agencies or instrumentalities of a security held by the fund does not apply to the market value of such security or to shares of the fund itself. A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity. In addition, because many types of U.S. government securities trade actively outside the United States, their prices may rise and fall as changes in global economic conditions affect the demand for these securities.
- *Repurchase agreement counterparty risk.* The fund is subject to the risk that a counterparty in a repurchase agreement and/or, for a tri-party repurchase agreement, the third party bank providing payment administration, collateral custody and management services for the transaction, could fail to honor the terms of the agreement.

- *Municipal securities risk.* Municipal securities may be fully or partially backed or enhanced by the taxing authority of a local government, by the current or anticipated revenues from a specific project or specific assets, or by the credit of, or liquidity enhancement provided by, a private issuer. Special factors, such as legislative changes, and state and local economic and business developments, may adversely affect the yield and/or value of the fund's investments in municipal securities. Other factors include the general conditions of the municipal securities market, the size of the particular offering, the maturity of the obligation and the rating of the issue. The municipal securities market can be susceptible to increases in volatility and decreases in liquidity. Liquidity can decline unpredictably in response to overall economic conditions or credit tightening. Increases in volatility and decreases in liquidity may be caused by a rise in interest rates (or the expectation of a rise in interest rates), which currently are at or near historic lows in the United States. Changes in economic, business or political conditions relating to a particular municipal project, municipality, or state, territory or possession of the United States in which the fund invests may impair the fund's ability to maintain a stable net asset value. Various types of municipal securities are often related in such a way that political, economic or business developments affecting one obligation could affect other municipal securities held by the fund.

## Management

---

The investment adviser for the fund is The Dreyfus Corporation, 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages approximately \$243 billion in 149 mutual fund portfolios. For the past fiscal year, the fund paid Dreyfus a management fee at the annual rate of .09% of the fund's average daily net assets. A discussion regarding the basis for the board's approving the fund's management agreement with Dreyfus is available in the fund's semi-annual report for the six-month period ended October 31, 2017. Dreyfus is the primary mutual fund business of The Bank of New York Mellon Corporation (BNY Mellon), a global investments company dedicated to helping its clients manage and service their financial assets throughout the investment lifecycle. Whether providing financial services for institutions, corporations or individual investors, BNY Mellon delivers informed investment management and investment services in 35 countries. BNY Mellon has \$34.5 trillion in assets under custody and administration and \$1.8 trillion in assets under management. BNY Mellon is the corporate brand of The Bank of New York Mellon Corporation. BNY Mellon Investment Management is one of the world's leading investment management organizations, and one of the top U.S. wealth managers, encompassing BNY Mellon's affiliated investment management firms, wealth management services and global distribution companies. Additional information is available at [www.bnymellon.com](http://www.bnymellon.com).

The Dreyfus asset management philosophy is based on the belief that discipline and consistency are important to investment success. For each fund, Dreyfus seeks to establish clear guidelines for portfolio management and to be systematic in making decisions. This approach is designed to provide each fund with a distinct, stable identity.

MBSC Securities Corporation (MBSC), a wholly-owned subsidiary of Dreyfus, serves as distributor of the fund and of the other funds in the Dreyfus Family of Funds. Any Rule 12b-1 fees and shareholder services fees, as applicable, are paid to MBSC for financing the sale and distribution of fund shares and for providing shareholder account service and maintenance, respectively. Dreyfus or MBSC may provide cash payments out of its own resources to financial intermediaries that sell shares of funds in the Dreyfus Family of Funds or provide other services. Such payments are separate from any sales charges, 12b-1 fees and/or shareholder services fees or other expenses that may be paid by a fund to those financial intermediaries. Because those payments are not made by fund shareholders or the fund, the fund's total expense ratio will not be affected by any such payments. These payments may be made to financial intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid from Dreyfus' or MBSC's own resources to financial intermediaries for inclusion of a fund on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." From time to time, Dreyfus or MBSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorships; support for recognition programs; technology or infrastructure support; and other forms of cash or non-cash compensation permissible under broker-dealer regulations. In some cases, these payments or compensation may create an incentive for a financial intermediary or its employees to recommend or sell shares of the fund to you. This potential conflict of interest may be addressed by policies, procedures or practices that are adopted by the financial intermediary. As there may be many different policies, procedures or practices adopted by different intermediaries to address the manner in which compensation is earned through the sale of investments or the provision of related services, the compensation rates and other payment arrangements that may apply to a financial intermediary and its representatives may vary by intermediary. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the fund.

Class A shares of the fund are subject to an annual administrative services plan fee of 0.10% to reimburse the fund's distributor and service agents for shareholder account service and maintenance expenses.

The fund, Dreyfus and MBSC have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by the fund. Each code of ethics restricts the personal securities transactions of employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the respective codes is to ensure that personal trading by employees is done in a manner that does not disadvantage the fund or other client accounts.

# Shareholder Guide

## Buying and Selling Shares

---

You pay no sales charges to invest in shares of the fund. Your price for the fund's shares is the net asset value (NAV) per share.

The fund's portfolio securities are valued at amortized cost, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. The fund uses the amortized cost method of valuation pursuant to Rule 2a-7 under the Investment Company Act of 1940, as amended, in order to be able to maintain a price of \$1.00 per share.

When calculating its NAV, the fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents, which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

Investments in the fund are limited to accounts beneficially owned by natural persons (i.e., human beings).

As a "retail" money market fund, the fund has adopted policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. Natural persons may invest in the fund directly, jointly with other natural persons or through certain tax-advantaged savings accounts, trusts and other retirement and investment accounts, which may include, among others: participant-directed defined contribution plans; IRAs; custodial accounts; deferred compensation plans for government or tax-exempt organization employees; medical savings accounts; college savings plans; health savings account plans; ordinary trusts and estates of natural persons; or certain other retirement and investment accounts with ultimate investment authority held by the natural person beneficial owner, notwithstanding having an institutional decision maker making day to day decisions (e.g., a plan sponsor in certain retirement arrangements or an investment adviser managing discretionary investment accounts). If a shareholder account is identified as potentially not being beneficially owned by a natural person, and it cannot be established that the shareholder can be re-categorized, the shareholder will be contacted and requested to redeem its fund shares. If the shareholder is not responsive and/or does not redeem the shares as requested (typically within five business days of the request), the shares will be redeemed at the initiation of the fund. The fund and its agents will not be responsible for any loss in an investor's account or tax liability resulting from an involuntary redemption.

Financial intermediaries are required, to the extent that they hold investments in the fund, to ensure compliance of such investments with the terms and conditions for investor eligibility as set forth above. Such financial intermediaries will be expected to have policies and procedures that are reasonably designed to limit all beneficial owners of the fund on behalf of whom they place purchase orders to natural persons. The fund may involuntarily redeem shares held through intermediaries that do not assist the fund so that the fund may conclude that such shares are beneficially owned by natural persons. Financial intermediaries must promptly report to the fund the identification of any beneficial owner of shares of the fund that is not a natural person of which they are aware and promptly take steps to redeem any such shares of the fund.

## How to Buy Shares

The fund's NAV is calculated on any day the New York Stock Exchange (NYSE) is open. In addition, the fund's NAV will be calculated on any day the NYSE is closed but the Federal Reserve Bank is open and the Securities Industry and Financial Markets Association (SIFMA) recommends that fixed income securities markets be open for the day or a portion of the day. In the event the NYSE and fixed income securities markets are closed but the Federal Reserve Bank is open, the fund may, but is not required to calculate the fund's NAV and accept purchase and redemption requests.

The time at which the fund's NAV is calculated, and the trading deadline for orders "in proper form" (as defined below), is reflected in the table below. The fund reserves the right to change the time at which the fund's NAV is calculated and the trading deadline to an earlier time than stated below in the case of an emergency, if regular trading on the NYSE is restricted or closes early, the fixed income securities markets or the Federal Reserve Bank close early, or as otherwise permitted by the Securities and Exchange Commission.

---

**Name of Fund**

Dreyfus Prime Money Market Fund

**Fund Calculation of  
NAV/Trading Deadline for  
Orders in Proper Form**

5:00 p.m.

*All times are Eastern time.*

Orders in proper form received and accepted by a fund or a financial intermediary that serves as agent for a fund by the time of day at which a fund calculates its NAV will become effective at the NAV determined on that day, and shares purchased will receive the dividend declared on that day. An order to purchase shares received by a fund will be deemed to be "in proper form" if a fund receives "federal funds" or other immediately available funds promptly thereafter. Unless other arrangements have been agreed in advance, a fund generally expects to receive funds within two hours after the order is received by a fund or a financial intermediary that serves as agent for a fund, or by the close of the Federal Reserve wire transfer system (normally, 6:00 p.m., Eastern time), whichever is earlier. Orders submitted through a financial intermediary that does not serve as an agent for the fund are priced at the fund's NAV next calculated after the fund receives the order in proper form from the intermediary and accepts it, which may not occur on the day the order is submitted to the intermediary.

An order in proper form received and accepted after the time of day at which a fund calculates its NAV will be priced at the NAV determined on the following business day and will begin to accrue dividends on such business day.

If payment is not received within the appropriate time period, a fund reserves the right to cancel the purchase order at its discretion, and the investor would be liable for any resulting losses or expenses incurred by a fund or a fund's transfer agent, including interest charges.

**By Mail.**

**Regular Accounts.** To open a regular account, complete an application and mail it, together with a check payable to The Dreyfus Family of Funds, to the appropriate address below. To purchase additional shares in a regular account, mail a check payable to The Dreyfus Family of Funds (with your account number on your check), together with an investment slip, to the appropriate address below.

**IRA Accounts.** To open an IRA account or make additional investments in an IRA account, be sure to specify the fund name and the year for which the contribution is being made. When opening a new account include a completed IRA application applicable to the type of IRA for which the investment is made, and when making additional investments include an investment slip. Make checks payable to The Dreyfus Family of Funds, and mail to the appropriate address below.

**Mailing Address.** If you are investing directly through the fund, mail to:

Dreyfus Shareholder Services  
P.O. Box 9879  
Providence, Rhode Island 02940-8079

If you are investing through a third party, such as a bank, broker-dealer or financial adviser, or in a Retirement Plan, mail to:

Dreyfus Institutional Department  
P.O. Box 9882  
Providence, Rhode Island 02940-8082

**Electronic Check or Wire.** To purchase shares in a regular or IRA account by wire or electronic check, please call 1-800-DREYFUS (inside the U.S. only) for more information.

**Telephone or Online.** To purchase additional shares by telephone or online, you can call 1-800-DREYFUS (inside the U.S. only) or visit [www.dreyfus.com](http://www.dreyfus.com) to request your transaction. In order to do so, you must have elected the Dreyfus TeleTransfer Privilege on your account application or a Shareholder Services Form. See "Services for Fund Investors — Wire Redemption and Dreyfus TeleTransfer Privileges" for more information.

**Automatically.** You may purchase additional shares in a regular or IRA account by selecting one of Dreyfus' automatic investment services made available to the fund on your account application or service application. See "Services for Fund Investors."

In general, the minimum initial investment is \$1 million. A financial intermediary may establish an account in the fund on behalf of one or more natural persons with a minimum of \$1 million in the fund or \$500 million invested in the aggregate in funds in the Dreyfus Family of Funds. The minimum initial investment for Dreyfus-sponsored Retirement Plans or Dreyfus-sponsored IRAs (other than Coverdell Education Savings Accounts) is \$750, with no minimum subsequent investment. The minimum initial investment for Dreyfus-sponsored Coverdell Education Savings Accounts is \$500, with no minimum subsequent investment. Subsequent investments made through Dreyfus TeleTransfer are subject to a \$100 minimum and a \$150,000 maximum. All investments must be in U.S. dollars. Third-party checks, cash, travelers' checks or money orders will not be accepted. You may be charged a fee for any check that does not clear.

## **How to Sell Shares**

You may sell (redeem) shares at any time. Your shares will be sold at the next NAV calculated after your order is received in proper form by the fund or a financial intermediary that serves as agent for the fund. For requests to redeem shares received in proper form by 5:00 p.m., shares will be priced at the NAV calculated at 5:00 p.m. on that day; for requests to redeem shares received after 5:00 p.m., shares will be priced at the NAV calculated on the following day. Any certificates representing fund shares being sold must be returned with your redemption request. Your order will be processed promptly.

If you request the fund to transmit your redemption proceeds to you by check, the fund expects that your redemption proceeds normally will be sent within two business days after your request is received in proper form. If you request the fund to transmit your redemption proceeds to you by wire via the Wire Redemption Privilege (\$1,000 minimum) or electronic check via the Dreyfus TeleTransfer Privilege (\$500 minimum), and the fund has your bank account information on file, the fund expects that your redemption proceeds normally will be wired within one business day or sent by electronic check within two business days, as applicable, to your bank account after your request is received in proper form. See "Services for Fund Investors — Wire Redemption and Dreyfus TeleTransfer Privileges" for more information. Payment of redemption proceeds may take longer than the number of days the fund typically expects and may take up to seven days after your order is received in proper form by the fund's transfer agent or other authorized entity, particularly during periods of stressed market conditions or very large redemptions or excessive trading.

The processing of redemptions may be suspended, and the delivery of redemption proceeds may be delayed beyond seven days, depending on the circumstances, for any period: (i) during which the NYSE is closed (other than on holidays or weekends), or during which trading on the NYSE is restricted; (ii) when an emergency exists that makes the disposal of securities owned by the fund or the determination of the fair value of the fund's net assets not reasonably practicable; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

Additionally, the fund may impose a fee upon the sale of your shares (a "liquidity fee") or may temporarily suspend your ability to sell shares (a redemption "gate") if the fund's liquidity falls below required minimums. See "Potential Restrictions on Fund Redemptions—Fees and Gates" below for more information.

Before selling shares recently purchased by check, Dreyfus TeleTransfer or Automatic Asset Builder, please note that:

- if you send a written request to sell such shares, the fund may delay sending the proceeds for up to eight business days following the purchase of those shares or until the fund receives verification of clearance of the funds used to purchase such shares
- the fund will not process wire, telephone, online or Dreyfus TeleTransfer redemption requests for up to eight business days following the purchase of those shares or until the fund receives verification of clearance of the funds used to purchase such shares

Under normal circumstances, the fund expects to meet redemption requests by using cash it holds in its portfolio or selling portfolio securities to generate cash. In addition, pursuant to an interfund lending order granted by the SEC, the fund, and certain other money market funds in the Dreyfus Family of Funds, may borrow money from certain money market funds in the Dreyfus Family of Funds for temporary or emergency purposes to meet redemption requests.

The fund also reserves the right to pay redemption proceeds in securities rather than cash (i.e., "redeem in kind"), if the amount redeemed is large enough to affect fund operations or the redemption request is during stressed market conditions. Investors are urged to call Dreyfus Investments Division before effecting any large transactions. Securities distributed in connection with any such redemption in-kind are expected to generally represent the investor's pro rata portion of assets held by the fund immediately prior to the redemption, with adjustments as may be necessary in connection with, for example, restricted securities, odd lots or fractional shares. Any securities distributed in-kind will remain exposed to market risk until sold, and you may incur taxable gain when selling the securities.

## **By Mail.**

**Regular Accounts.** To redeem shares in a regular account by mail, send a letter of instruction that includes your name, your account number, the name of the fund, the dollar amount to be redeemed and how and where to send the proceeds. Mail your request to the appropriate address below.

**IRA Accounts.** To redeem shares in an IRA account by mail, send a letter of instruction that includes all of the same information for regular accounts and indicate whether the distribution is qualified or premature and whether the 10% TEFRA should be withheld. Mail your request to the appropriate address below.

**Mailing Address.** If you invested directly through the fund, mail to:

Dreyfus Shareholder Services  
P.O. Box 9879  
Providence, Rhode Island 02940-8079

If you invested through a third party, such as a bank, broker-dealer or financial adviser, or in a Retirement Plan, mail to:

Dreyfus Institutional Department  
P.O. Box 9882  
Providence, Rhode Island 02940-8082

A medallion signature guarantee is required for some written sell orders. These include:

- amounts of \$10,000 or more on accounts whose address has been changed within the last 30 days
- requests to send the proceeds to a different payee or address
- amounts of \$100,000 or more

A medallion signature guarantee helps protect against fraud. You can obtain one from most banks or securities dealers, but not from a notary public. For joint accounts, each signature must be guaranteed. Please call to ensure that your medallion signature guarantee will be processed correctly.

**Telephone or Online.** To redeem shares by telephone or online, call 1-800-DREYFUS (inside the U.S. only) or, for regular accounts, visit [www.dreyfus.com](http://www.dreyfus.com) to request your transaction.

By calling 1-800-DREYFUS (inside the U.S. only), you may speak to a Dreyfus representative and request that redemption proceeds be paid by check and mailed to your address of record (maximum \$250,000 per day). For redemption requests made online through [www.dreyfus.com](http://www.dreyfus.com) or through Dreyfus Express® automated account access system, there is a \$100,000 per day limit.

**Automatically.** You may sell shares in a regular account by completing a Dreyfus Automatic Withdrawal Form which you can obtain by calling 1-800-DREYFUS (inside the U.S. only), visiting [www.dreyfus.com](http://www.dreyfus.com) or contacting your financial representative. For instructions on how to establish automatic withdrawals to sell shares in an IRA account, please call 1-800-DREYFUS (inside the U.S. only) or contact your financial representative. See "Services for Fund Investors — Automatic Services."

### **Potential Restrictions on Fund Redemptions—Fees and Gates**

If the fund's weekly liquid assets fall below 30% of its total assets, the fund's board, if it determines it is in the best interests of the fund, may impose liquidity fees of up to 2% of the value of the shares redeemed and/or redemption gates beginning as early as the same day. In addition, if the fund's weekly liquid assets fall below 10% of its total assets at the end of any business day, the fund must impose a 1% liquidity fee on shareholder redemptions, beginning on the next business day, unless the fund's board, including a majority of the board members who are not "interested persons" of the fund, determines that a lower or higher fee (not to exceed 2%), or no fee, is in the best interests of the fund. "Weekly liquid assets" include cash, government securities and securities readily convertible into cash within five business days. It is anticipated that the need to impose liquidity fees and redemption gates would occur very rarely, if at all, during times of extraordinary market stress.

Shareholders and financial intermediaries generally will be notified before a liquidity fee is imposed on the fund (although the fund's board, in its discretion, may elect otherwise). A liquidity fee would be imposed on all redemption requests (including redemptions by exchange into another fund) processed at the first NAV calculation following the announcement that the fund would impose a liquidity fee, which may be the same day. Liquidity fees generally would operate to reduce the amount an investor receives upon redemption of fund shares, including upon an exchange of fund shares for shares of another fund, although under certain arrangements through which an intermediary remits the liquidity fee to the fund and charges an investor directly the fund will pay gross redemption proceeds to the intermediary. Liquidity fee proceeds would generally be retained by the fund and may be used to assist the fund to restore its \$1.00 share price. If the fund receives a liquidity fee, it is possible that it may return the fee to shareholders in the form of a distribution at a later time.

Shareholders and financial intermediaries will not be notified prior to the imposition of a redemption gate; however, financial intermediaries may be notified after the last NAV is calculated on the day the fund's board has made a decision to impose a redemption gate. Redemption requests (including redemptions by exchange into another fund) submitted while a redemption gate is imposed will be cancelled without further notice. If shareholders still wish to redeem their shares after a redemption gate has been lifted, they will need to submit a new redemption request at that time.

When a liquidity fee or a redemption gate is in place, the fund may elect to stop selling shares or to impose additional conditions on the purchase of shares.

The fund's board may, in its discretion, terminate a liquidity fee or redemption gate at any time if it believes such action to be in the best interest of the fund. In addition, a liquidity fee or redemption gate will automatically terminate at the beginning of the next business day once the fund's weekly liquid assets reach at least 30% of its total assets. Redemption gates may only last up to 10 business days in any 90-day period.

The imposition and termination of a liquidity fee or redemption gate would be announced on the fund's website ([www.dreyfus.com](http://www.dreyfus.com)). In addition, the fund will communicate such action through a disclosure supplement to this prospectus and may further communicate such action by other means.

The fund's board also may determine to permanently suspend redemptions and liquidate the fund if the fund, at the end of a business day, has less than 10% of its total assets invested in weekly liquid assets and the fund's board determines that it would not be in the best interests of the fund to continue operating. In the event that the board approves liquidation of the fund, Dreyfus will commence the orderly liquidation of the fund's portfolio securities, following which the fund's net assets will be distributed to shareholders pursuant to a plan of liquidation adopted by the board.

## General Policies

---

The fund and the fund's transfer agent are authorized to act on telephone or online instructions from any person representing himself or herself to be you and reasonably believed by the fund or the transfer agent to be genuine. You may be responsible for any fraudulent telephone or online order as long as the fund or the fund's transfer agent (as applicable) takes reasonable measures to confirm that the instructions are genuine.

All shareholder services and privileges offered to shareholders may be modified or terminated at any time, except as otherwise stated in the fund's Statement of Additional Information (SAI). Please see the fund's SAI for additional information on buying and selling shares, privileges and other shareholder services.

If you invest through a financial intermediary (rather than directly through the fund), the policies may be different than those described herein. For example, banks, brokers, Retirement Plans, financial advisers and financial supermarkets may charge transaction fees and may set different minimum investments or limitations on buying or selling shares. Please consult your financial representative.

Money market funds generally are used by investors for short-term investments, often in place of bank checking or savings accounts, or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the fund has not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the fund, are not typically targets of abusive trading practices. However, frequent purchases and redemptions of the fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. The fund reserves the right to reject any purchase or exchange request in whole or in part. Funds in the Dreyfus Family of Funds that are not money market mutual funds have approved policies and procedures that are intended to discourage and prevent abusive trading practices in those mutual funds, which may apply to exchanges from or into the fund. If you plan to exchange your fund shares for shares of another Dreyfus fund, please read the prospectus of that other Dreyfus fund for more information.

The fund also reserves the right to:

- change or discontinue fund exchanges, or temporarily suspend exchanges during unusual market conditions
- change its minimum investment amount

The fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

## Escheatment

If your account is deemed "abandoned" or "unclaimed" under state law, the fund may be required to "escheat" or transfer the assets in your account to the applicable state's unclaimed property administration. The state may sell escheated shares and, if you subsequently seek to reclaim your proceeds of liquidation from the state, you may only be able to recover the amount received when the shares were sold. It is your responsibility to ensure that you maintain a correct address for your account, keep your account active by contacting the fund's transfer agent or distributor by mail or telephone or accessing your account through the fund's website at least once a year, and promptly cash all checks for dividends, capital gains and redemptions. The fund, the fund's transfer agent and Dreyfus and its affiliates will not be liable to shareholders or their representatives for good faith compliance with state escheatment laws.

## Distributions and Taxes

---

The fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. The fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. The fund ordinarily declares dividends from its net investment income on each day its NAV is calculated and normally pays dividends monthly and capital gain distributions, if any, annually. Fund dividends and capital gain distributions will be reinvested in the fund unless you instruct the fund otherwise. There are no fees or sales charges on reinvestments.

The fund's distributions are taxable as ordinary income or capital gains (unless you are investing through an IRA, Retirement Plan or other U.S. tax-advantaged investment plan, in which case taxes may be deferred).

The tax status of any distribution generally is the same regardless of how long you have been in the fund and whether you reinvest your distributions or take them in cash.

The tax status of your distributions will be detailed in your annual tax statement from the fund. Because everyone's tax situation is unique, please consult your tax adviser before investing.

Because liquidity fees may be imposed on redemptions, including taxable exchanges into other funds, a shareholder may realize a gain or loss for tax purposes upon the redemption or exchange of fund shares. Generally, a shareholder of a money market fund, such as the fund, rather than realizing gain or loss upon each redemption or exchange of fund shares, may use a simplified method of accounting to annually recognize gain or loss (generally treated as short-term capital gain or loss) with respect to its shares in the fund, based on the changes in the aggregate value of the shareholder's shares in the fund during the computation period or periods (selected by the shareholder) comprising the shareholder's taxable year. Under prescribed rules, the change in value in the shareholder's fund shares for each computation period is adjusted appropriately to reflect any acquisitions and redemptions of fund shares by the shareholder during that computation period.

If a liquidity fee is imposed by the fund, it generally would reduce the amount you will receive upon the redemption of your shares, and would generally decrease the amount of any capital gain or increase the amount of any capital loss you will recognize with respect to such redemption. There is some degree of uncertainty with respect to the tax treatment of liquidity fees received by the fund, and such tax treatment may be the subject of future guidance issued by the Internal Revenue Service. If the fund receives liquidity fees, it will consider the appropriate tax treatment of such fees to the fund at such time.

## Services for Fund Investors

---

The following services may be available to fund investors. If you purchase shares through a third party financial intermediary or in a Retirement Plan, the financial intermediary or Retirement Plan recordkeeper may impose different restrictions on these services and privileges, or may not make them available at all. Consult a representative of your financial intermediary or Retirement Plan for further information.

### Automatic Services

Buying or selling shares automatically is easy with the services described below. With each service, you select a schedule and amount, subject to certain restrictions. For information, call 1-800-DREYFUS (inside the U.S. only) or your financial representative.

**Dreyfus Automatic Asset Builder®** permits you to purchase fund shares (minimum of \$100 and maximum of \$150,000 per transaction) at regular intervals selected by you. Fund shares are purchased by transferring funds from the bank account designated by you.

**Dreyfus Payroll Savings Plan** permits you to purchase fund shares (minimum of \$100 per transaction) automatically through a payroll deduction.

**Dreyfus Government Direct Deposit** permits you to purchase fund shares (minimum of \$100 and maximum of \$50,000 per transaction) automatically from your federal employment, Social Security or other regular federal government check.

**Dreyfus Dividend Sweep** permits you to automatically reinvest dividends and distributions from the fund in shares of the same class, or another class in which you are eligible to invest, of another fund in the Dreyfus Family of Funds. Shares held through a Dreyfus-sponsored Coverdell Education Savings Account are not eligible for this privilege.

**Dreyfus Auto-Exchange Privilege** permits you to exchange at regular intervals your fund shares for shares of the same class, or another class in which you are eligible to invest, of another fund in the Dreyfus Family of Funds.

**Dreyfus Automatic Withdrawal Plan** permits you to make withdrawals (minimum of \$50) on a specific day each month, quarter or semiannual or annual period, provided your account balance is at least \$5,000.

## **Fund Exchanges**

Generally, you can exchange shares worth \$500 or more (no minimum for Dreyfus-sponsored Retirement Plans and Dreyfus-sponsored IRAs) into shares of the same class, or another class in which you are eligible to invest, of another fund in the Dreyfus Family of Funds. You can request your exchange by calling 1-800-DREYFUS (inside the U.S. only) or your financial representative. Be sure to read the current prospectus for any fund into which you are exchanging before investing. Any new account established through an exchange generally will have the same privileges as your original account (as long as they are available). There is currently no fee for exchanges, although you may be charged a sales load when exchanging into any fund that has one.

Your exchange request will be processed on the same business day it is received in proper form, provided that each fund is open at the time of the request (i.e., the request is received by the latest time each fund calculates its NAV for that business day). If the exchange is accepted at a time of day after one or both of the funds is closed (i.e., at a time after the NAV for the fund has been calculated for that business day), the exchange will be processed on the next business day. See the SAI for more information regarding exchanges.

## **Wire Redemption and Dreyfus TeleTransfer Privileges**

To redeem shares from your Dreyfus fund account with a phone call (for regular or IRA accounts) or online (for regular accounts only), use the Wire Redemption Privilege or the Dreyfus TeleTransfer Privilege. To purchase additional shares of your Dreyfus Fund account with a phone call (for regular or IRA accounts) or online (for regular accounts only), use the Dreyfus TeleTransfer Privilege. You can set up the Wire Redemption Privilege and Dreyfus TeleTransfer Privilege on your account by providing bank account information and following the instructions on your application or, if your account has already been established, a Shareholder Services Form which you can obtain by calling 1-800-DREYFUS (inside the U.S. only), visiting [www.dreyfus.com](http://www.dreyfus.com) or by contacting your financial representative. Shares held in a Coverdell Education Savings Account may not be redeemed through the Wire Redemption or Dreyfus TeleTransfer Privileges.

## **Account Statements**

Every Dreyfus fund investor automatically receives regular account statements. You will also be sent a yearly statement detailing the tax characteristics of any dividends and distributions you have received.

## **Dreyfus Express<sup>®</sup> Voice-Activated Account Access**

You can check your Dreyfus account balances, get fund price and performance information, order documents and much more, by calling 1-800-DREYFUS (inside the U.S. only) and using the Dreyfus Express<sup>®</sup> Voice-Activated System. You may also be able to purchase fund shares and/or transfer money between your Dreyfus Funds using Dreyfus Express<sup>®</sup>. Certain requests require the services of a representative.

## **Dreyfus Advisor Services**

For investors with a minimum of \$100,000 or more in investable assets, Dreyfus Advisor Services is a personalized asset management service. We welcome the opportunity to discuss what we can do, specifically for you. For more information, contact an advisor at 1-800-896-2645.

## Financial Highlights

These financial highlights describe the performance of the fund's shares for the fiscal periods indicated. "Total return" shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. These financial highlights have been derived from the fund's financial statements, which have been audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Class A Shares	Year Ended April 30,		
	2018	2017	2016 <sup>a</sup>
<b>Per Share Data (\$):</b>			
Net asset value, beginning of period	1.00	1.00	1.00
Investment Operations:			
Investment income--net	.012	.006	.000 <sup>b</sup>
Distributions:			
Dividends from investment income--net	(.012)	(.006)	(.000) <sup>b</sup>
Net asset value, end of period	1.00	1.00	1.00
<b>Total Return (%)</b>	1.25	.55	.04 <sup>c</sup>
<b>Ratios/Supplemental Data (%):</b>			
Ratio of total expenses to average net assets	.20	.20	.32 <sup>d</sup>
Ratio of net expenses to average net assets	.19	.20	.20 <sup>d</sup>
Ratio of net investment income to average net assets	1.26	.64	.23 <sup>d</sup>
Net Assets, end of period (\$ x 1,000)	129,693	100,291	40

<sup>a</sup> From March 1, 2016 (commencement of initial offering) to April 30, 2016.

<sup>b</sup> Amount represents less than \$.001 per share.

<sup>c</sup> Not annualized.

<sup>d</sup> Annualized.

## NOTES

# For More Information

## Dreyfus Prime Money Market Fund

a series of CitizensSelect Funds

More information on this fund is available free upon request, including the following:

### Annual/Semiannual Report

The fund's annual and semiannual reports describe the fund's performance, list portfolio holdings and contain a letter from the fund's manager discussing recent market conditions, economic trends and fund strategies that significantly affected the fund's performance during the period covered by the report. The fund's most recent annual and semiannual reports are available at [www.dreyfus.com](http://www.dreyfus.com).

### Statement of Additional Information (SAI)

The SAI provides more details about the fund and its policies. A current SAI is available at [www.dreyfus.com](http://www.dreyfus.com) and is on file with the Securities and Exchange Commission (SEC). The SAI is incorporated by reference (and is legally considered part of this prospectus).

### Portfolio Holdings

Dreyfus funds generally disclose, at [www.dreyfus.com](http://www.dreyfus.com) under Products, (1) complete portfolio holdings as of each month-end with a one month lag and as of each calendar quarter end with a 15-day lag; (2) top 10 holdings as of each month-end with a 10-day lag; and (3) from time to time, certain security-specific performance attribution data as of a month-end, with a 10-day lag. From time to time a fund may make available certain portfolio characteristics, such as allocations, performance- and risk-related statistics, portfolio-level statistics and non-security specific attribution analyses, on request. Dreyfus money market funds generally disclose, also at [www.dreyfus.com](http://www.dreyfus.com) under Products, their complete schedule of holdings daily. A fund's portfolio holdings and any security-specific performance attribution data will remain on the website at least until the fund files its Form N-Q or Form N-CSR for the period that includes the dates of the posted holdings.

A complete description of the fund's policies and procedures with respect to the disclosure of the fund's portfolio securities is available in the fund's SAI and at [www.dreyfus.com](http://www.dreyfus.com).
