Before you invest, you may want to review the fund's prospectus, which contains more information about the fund and its risks. You can find the fund's prospectus and other information about the fund, including the statement of additional information and most recent reports to shareholders, online at http://im.bnymellon.com/literaturecenter. You can also get this information at no cost by calling 1-800-373-9387 (inside the U.S. only) or by sending an e-mail request to info@bnymellon.com. The fund's prospectus and statement of additional information, dated March 31, 2020 (each as revised or supplemented), are incorporated by reference into this summary prospectus.

General Treasury and Agency Money Market Fund

Investment Objective

The fund seeks a high level of current income consistent with stability of principal.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the fund.

<table>
<thead>
<tr>
<th>Annual Fund Operating Expenses</th>
<th>Management fees</th>

</tr>
</tbody>
</table>

*The fund’s investment adviser, BNY Mellon Investment Adviser, Inc., has agreed in its investment management agreement with the fund to: (1) pay all of the fund’s expenses, except management fees, and certain other expenses, including the fees and expenses of the non-interested board members and their counsel, and (2) reduce its fees pursuant to the investment management agreement in an amount equal to the fund’s allocable portion of the fees and expenses of the non-interested board members and their counsel (in the amount of .01% for the past fiscal year). These provisions in the investment management agreement may not be amended without the approval of the fund’s shareholders.

Example

The Example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The Example assumes that you invest $10,000 in the fund for the time periods indicated and then hold or redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

Principal Investment Strategy

The fund pursues its investment objective by investing only in U.S. Treasury securities, repurchase agreements collateralized solely by U.S. Treasury securities or securities issued by U.S. government agencies that are backed by the full faith and credit of the U.S. government, and cash. The fund is a money market fund subject to the maturity, quality, liquidity and diversification requirements of Rule 2a-7 under the Investment Company Act of 1940, as amended, and seeks to maintain a stable share price of $1.00.

The fund is a "government money market fund," as that term is defined in Rule 2a-7, and as such is required to invest at least 99.5% of its total assets in securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or
instrumentalities, repurchase agreements collateralized solely by cash and/or government securities, and cash. The fund normally
invests at least 80% of its net assets in U.S. Treasury securities and repurchase agreements collateralized solely by U.S. Treasury
securities or securities issued by U.S. government agencies that are backed by the full faith and credit of the U.S. government (i.e.,
under normal circumstances, the fund will not invest more than 20% of its net assets in cash or repurchase agreements
collateralized by cash), and typically invests exclusively in such securities.

Principal Risks

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the Federal Deposit Insurance Corporation
(FDIC) or any other government agency. You could lose money by investing in the fund. Although the fund seeks to preserve
the value of your investment at $1.00 per share, it cannot guarantee it will do so. The fund's yield will fluctuate as the short-term
securities in its portfolio mature or are sold and the proceeds are reinvested in securities with different interest rates. The fund
currently is not permitted to impose a fee upon the sale of shares (a "liquidity fee") or temporarily suspend redemptions (a
redemption "gate") under distressed conditions as some other types of money market funds are, and the fund's board has no
intention to impose a liquidity fee or redemption gate. Neither BNY Mellon Investment Adviser, Inc. nor its affiliates have a legal
obligation to provide financial support to the fund, and you should not expect that BNY Mellon Investment Adviser, Inc. or its
affiliates will provide financial support to the fund at any time. The following are the principal risks that could reduce the fund's
income level and/or share price:

- **Interest rate risk.** This risk refers to the decline in the prices of fixed-income securities that may accompany a rise in the overall
  level of interest rates. A sharp and unexpected rise in interest rates could impair the fund's ability to maintain a stable net asset
  value. A low interest rate environment may prevent the fund from providing a positive yield or paying fund expenses out of
  fund assets and could impair the fund's ability to maintain a stable net asset value.

- **Liquidity risk.** When there is little or no active trading market for specific types of securities, it can become more difficult to sell
  the securities in a timely manner at or near their perceived value. In such a market, the value of such securities may fall
dramatically, potentially impairing the fund's ability to maintain a stable net asset value.

- **U.S. Treasury securities risk.** A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed
  only as to the timely payment of interest and principal when held to maturity, but the market prices for such securities are not
  guaranteed and will fluctuate.

- **Market risk.** The value of the securities in which the fund invests may be affected by political, regulatory, economic and social
developments, and developments that impact specific economic sectors, industries or segments of the market. In addition,
turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many
issuers, which could adversely affect the fund. Global economies and financial markets are becoming increasingly
interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different
country, region or financial market. These risks may be magnified if certain events or developments adversely interrupt the
global supply chain; in these and other circumstances, such risks might affect companies worldwide. Recent examples include
pandemic risks related to COVID-19 and aggressive measures taken worldwide in response by governments, including closing
borders, restricting international and domestic travel, and the imposition of prolonged quarantines of large populations, and by
businesses, including changes to operations and reducing staff. The effects of COVID-19 have contributed to increased
volatility in global markets and will likely affect certain countries, companies, industries and market sectors more dramatically
than others. The COVID-19 pandemic has had, and any other outbreak of an infectious disease or other serious public health
concern could have, a significant negative impact on economic and market conditions and could trigger a prolonged period of
global economic slowdown. To the extent the fund may overweight its investments in certain countries, companies, industries
or market sectors, such positions will increase the fund's exposure to risk of loss from adverse developments affecting those
countries, companies, industries or sectors.

- **Repurchase agreement counterparty risk.** The fund is subject to the risk that a counterparty in a repurchase agreement could fail to
  honor the terms of the agreement.

Performance

The following bar chart and table provide some indication of the risks of investing in the fund. The bar chart shows changes in
the performance of the fund's Dreyfus Class shares from year to year. The table shows the average annual total returns of the
fund's Dreyfus Class shares over time. The fund's past performance is not necessarily an indication of how the fund will perform
in the future. More recent performance information may be available at www.dreyfus.com.

Portfolio Management

The fund is managed by Dreyfus Cash Investment Strategies, a division of BNY Mellon Investment Adviser, Inc., the fund's investment adviser.

Purchase and Sale of Fund Shares

In general, the fund's minimum initial investment is $2,500 and the minimum subsequent investment is $100. You may sell (redeem) your shares on any business day by calling 1-800-373-9387 (inside the U.S. only) or by visiting www.dreyfus.com. If you invested in the fund through a third party, such as a bank, broker-dealer or financial adviser, or through a Retirement Plan (as defined below) you may mail your request to sell shares to BNY Mellon Institutional Department, P.O. Box 9882, Providence, Rhode Island 02940-8082. If you invested directly through the fund, you may mail your request to sell shares to BNY Mellon Shareholder Services, P.O. Box 9879, Providence, Rhode Island 02940-8079.

Retirement Plans include qualified or non-qualified employee benefit plans, such as 401(k), 403(b)(7), Keogh, pension, profit-sharing and other deferred compensation plans, whether established by corporations, partnerships, sole proprietorships, non-profit entities, trade or labor unions, or state and local governments, but do not include IRAs (including, without limitation, traditional IRAs, Roth IRAs, Coverdell Education Savings Accounts, IRA "Rollover Accounts" or IRAs set up under Simplified Employee Pension Plans (SEP-IRAs), Salary Reduction Simplified Employee Pension Plans (SARSEPs) or Savings Incentive Match Plans for Employees (SIMPLE IRAs)).

Tax Information

The fund's distributions are taxable as ordinary income or capital gains, except when your investment is through an IRA, Retirement Plan or other U.S. tax-advantaged investment plan (in which case you may be taxed upon withdrawal of your investment from such account).

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. To the extent that the intermediary may receive lesser or no payments in connection with the sale of other investments, the payments from the fund and its related companies may create a potential conflict of interest by influencing the broker-dealer or other intermediary and your financial representative to recommend the fund over the other investments. This potential conflict of interest may be addressed by policies, procedures or practices adopted by the financial intermediary. As there may be many different policies, procedures or practices adopted by
different intermediaries to address the manner in which compensation is earned through the sale of investments or the provision of related services, the compensation rates and other payment arrangements that may apply to a financial intermediary and its representatives may vary by intermediary. Ask your financial representative or visit your financial intermediary's website for more information.
