BNY MELLON ABSOLUTE INSIGHT FUND
EURO R (ACC) (ISIN: IE00BGL2TT87)
A SUB-FUND OF BNY MELLON GLOBAL FUNDS, PLC
THIS FUND IS MANAGED BY BNY MELLON GLOBAL MANAGEMENT LIMITED

OBJECTIVES AND INVESTMENT POLICY

OBJECTIVE
To provide a positive absolute return in all market conditions.

Performance aim:
The Fund aims to deliver the cash benchmark 1 month EURIBOR plus 4 to 6%, on a rolling annualised 5 year basis before fees. In doing so, the Fund aims to achieve a positive return over a rolling 12 month period.

POLICY
The Fund Will:
- invest anywhere in the world;
- invest in company shares (i.e. equities) and similar investments;
- invest in bonds and similar debt investments issued by governments, companies and other public entities;
- invest in bonds with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds) or no credit rating;
- invest in emerging markets;
- invest in currency investments;
- invest in commodities, property and infrastructure through derivatives and collective investment schemes, including listed real estate investment trust (“REITS”); and
- invest in a wide range of derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of generating returns and reducing the overall costs and/or risks of the Fund. This may result in the Fund being leveraged, which can magnify the exposure of the Fund to a greater level than the Net Asset Value. In such situations, the value of your investment may rise or fall more than it would have done otherwise.

The Fund May:
- invest up to 10% in securities listed or traded on Russian markets;
- invest up to 10% in aggregate in transferable securities or money market instruments which are not admitted to or dealt in on a regulated market, in accordance with the UCITS regulations;
- invest up to 10% in loans; and
- invest up to 10% in other collective investment schemes;

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

Treatment of income: income from investments will be retained within the Fund. This will increase the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each working day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is EUR 5,000.

RISK AND REWARD PROFILE

Lower risk Potentially lower reward | Higher risk Potentially higher reward
---|---
1 2 3 4 5 6 7

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. As this Fund has less than five years performance data available, it is based on simulated volatility and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 2 because its simulated historical value has shown low volatility. With a Fund of category 2, you have a low risk of losing money but your chance for gains is also low.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:
- The performance aim is not a guarantee, may not be achieved and a capital loss may occur. Funds which have a higher performance aim generally take more risk to achieve this and so have a greater potential for the returns to be significantly different than expected.
- This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.
- The Fund will use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment.
- The Fund holds bonds with a low credit rating that have a greater risk of default. These investments may affect the value of the Fund.
- The Fund may invest in emerging markets. These markets have additional risks due to less developed market practices.
- The Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.
