BNY MELLON GLOBAL PROPERTY SECURITIES FUND

USD A (ISIN: IE00B2PPLR79)
A SUB-FUND OF BNY MELLON GLOBAL FUNDS, PLC
THIS FUND IS MANAGED BY BNY MELLON GLOBAL MANAGEMENT LIMITED

OBJECTIVES AND INVESTMENT POLICY

OBJECTIVE
To maximise total returns from long term capital growth and income through investment primarily in a diversified portfolio of real estate related securities listed or traded on Eligible Markets worldwide including listed Real Estate Investment Trusts (REITs), listed Real Estate Operating Companies (REOCs) and equity securities of companies whose principal business is the ownership, management and/or development of income producing and for-sale real estate.

POLICY
The Fund will:
– invest anywhere in the world;
– invest in listed REITs (Real Estate Investment Trusts) and REOCs (Real Estate Operating Companies) and shares of listed property-related companies;
– follow a diversified investment approach; and
– limit investment in other collective investment schemes to 10%.

The Fund may:
– invest in derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of generating returns and reducing the overall costs and/or risks of the Fund.

Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.

Treatment of income: income from investments will be retained within the Fund. This will increase the value of your shares.

Dealing: you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each working day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is USD 5,000.

RISK AND REWARD PROFILE

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

This Fund is in category 5 because its historical value has shown moderately high volatility. With a Fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:
– There is no guarantee that the Fund will achieve its objective.
– This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

– Events adversely affecting the property industry may have a significant impact on the value of the Fund.
– The Fund may use derivatives to generate returns as well as to reduce costs and/or the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment.
– The Fund may invest in emerging markets. These markets have additional risks due to less developed market practices.
– The Fund may invest in investments that are not traded regularly and are therefore subject to greater fluctuations in price.
– The Fund takes its charges from the capital of the Fund. Investors should be aware that there is potential for capital erosion if insufficient capital growth is achieved by the Fund to cover the charges. Capital erosion may have the effect of reducing the level of income generated.
– This share class is denominated in a different currency from the base currency (i.e. the reporting currency) of the Fund. Changes in the exchange rate between the share class currency and the base currency may affect the value of your investment.

A complete description of risk factors is set out in the Prospectus in the section entitled “Risk Factors.”
