**Government/Treasury Money Market Funds:** You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund’s sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Although the fund’s board has no current intention to impose a fee upon the sale of shares or temporarily suspend redemptions of a share or temporarily suspend payment of a dividend in a share, if it should decide to do so, the value of your investment may decline.

**Other Considerations:** The funds return to investors is derived from a combination of Moody’s assessment of a fund’s Portfolio Credit Profile, Portfolio Stability Profile, and other qualitative factors, is not intended to consider prospective performance of a fund.
