Goal/Approach
The BNY Mellon Sustainable Balanced Fund aims to deliver investment returns by investing in global companies and issuers of US fixed income which we believe have sustainable business models. It takes into account the impact and risks these companies and other issuers have on the environment and society. The fund changed its investment objective and strategy on April 1, 2019. Prior to April 1, 2019, the fund's investment objective was to provide current income, while maintaining the potential for long-term capital appreciation. To pursue these goals, until April 1, 2019, the fund used an actively-managed global multi-asset strategy that focused on income generation. In addition, until April 1, 2019, Newton was the sole sub-adviser for the fund. Newton allocated the fund's investments among equity and equity-related securities, debt and debt-related securities, and, generally to a lesser extent, real estate, commodities and infrastructure in developed and emerging markets.

Growth of a $10,000 Investment
A hypothetical $10,000 investment in the fund's Class K shares on 11/30/17 would have been worth $9,776 on 3/31/19.

Performance for the fund's other share classes would vary.

Effective April 1, 2019, Dreyfus Global Multi-Asset Income Fund was renamed BNY Mellon Sustainable Balanced Fund. The fund’s Class Y shares and Class A shares were renamed Class K shares and Service Class shares, respectively, effective April 1, 2019. As of March 31, 2019, Class K shares are not available for purchase by individual investors. Class K shares are generally only offered to state-sponsored and/or state-administered retirement savings plans. Class K Shares are available to investors of certain institutional investment platforms such as the CalSavers plan. In addition, a Service Class is available to accommodate a CalSaver plan participant who roles assets out of the CalSavers plan. Investors should discuss with their advisor the eligibility requirements for Class K shares and the historical results achieved by the fund’s respective share classes.
