Volume 12, Issue 1

Crane Data & Money Fund Intelligence

Crane Data publishes *Money Fund Intelligence* and provides competitive information on money market mutual funds. The news and statistics venture run by Peter Crane produces performance reports, indexes, analytics and a database on money market funds, cash investments and bond mutual funds.

Our flagship *Money Fund Intelligence* publication contains news, statistics and rankings on almost 1,000 money market mutual funds, and includes our benchmark *Crane Money Fund Indexes*.

Crane Data's suite of money fund information products also includes: *Money Fund Intelligence XLS*, an Excel "complement" to *MFI*; *Money Fund Intelligence Daily*; *Brokerage*

Sweep Intelligence; *Money Fund Wisdom*, a database query product which includes our *Money Fund Portfolio Holdings* and *Money Fund Portfolio Laboratory* transparency tool; and, *Money Fund Intelligence International*, our "offshore" money fund yields and statistics.

Crane Data also now publishes *Bond Fund Intelligence* and *BFI XLS*, which track performance and news in the bond fund marketplace. We also produce *Money Fund Symposium* the largest money market event in the world, and we provide consulting and custom research.

Visit www.cranedata.com or call 1-508-439-4419 for samples or for more information. ♦

Crane Data Product News

▶ **Bond Fund Portfolio Holdings Makes Its Debut.** The latest addition to our *Bond Fund Intelligence* product suite launches this summer. Our *BFI* products track the bond fund marketplace with a focus on the conservative, ultra-short bond fund sector. Contact us for more information or for the latest issue of *BFI* and its spreadsheet "complement" *BFI XLS*.

▶ **We're Preparing an Upgrade to Our Money Fund Wisdom Database.** Watch for a new version of our core database query system in late-2018. Last year, we enhanced our *Money Fund Portfolio Laboratory*, and "transparency" reports for our *Money Fund Portfolio Holdings* dataset. (Users may run country, issuer, and maturity reports.) Subscribers to our *Money Fund Wisdom* have access to the Holdings and to Crane Data's entire database of money fund information. Wisdom licenses allow users to generate custom reports and include Crane Data's entire product suite, including *Money Fund Intelligence*, *MFI XLS*, *MFI Daily*, *Money Fund Portfolio Holdings*, and the *Crane Indexes*.

▶ **Crane Data Conference Lineup.** Our next *European Money Fund Symposium* will be Sept. 20-21, 2018, in London; our "basic training" *Money Fund University* will be in Stamford, Conn., Jan. 24-25, 2019; and our 3rd *Bond Fund Symposium* is March 21-22, 2019, in Philadelphia, Pa. Our big *Money Fund Symposium* www.moneyfundsymposium.com is scheduled for June 24-26, 2019, in Boston, Mass (\$750). ♦
