Given the current market environment there are unusual circumstances that are reflecting higher yields in the municipal money market funds. As yields rise, prices decline which is a normal correlation. Please be assured that the fund has highly rated securities and holds healthy levels of liquidity to navigate appropriately in this market.

In light of the rate at which the market is evolving, General New Jersey Municipal Money Market Fund’s (“Fund”) Investment Adviser, BNY Mellon Investment Adviser, Inc. (“the Adviser”), made a capital contribution of $89,000 on March 23, 2020 to help increase the shadow net asset value (“shadow NAV”) of the fund.

**This fund is priced at $1.00 per share and has not deviated from that price.** The contribution made to the Fund is relevant only to the shadow NAV that reflects the market value of the securities in the fund. This does not reflect the need for liquidity nor is it a credit issue within the Fund. However, as required by our regulators, Form N-CR was filed with the Securities and Exchange Commission; additional information on this transaction is available on the Dreyfus Cash Investment Strategies (Dreyfus CIS) website at [www.dreyfus.com](http://www.dreyfus.com).

As investors in the Fund, we believe it is important to share this information with you to ensure our clients understand that the Fund has healthy liquidity, the securities are highly rated and that the flows to the Fund are at normal levels. This added transparency reflects our commitment of integrity, strength, and candor to our shareholders and the adherence to the intentions outlined in Rule 2(a)-7.

Dreyfus Cash Investment Strategies continues to be well-positioned to meet the investment needs of our clients with the depth and breadth of experience we bring to this asset class. Our attention to preservation of capital, liquidity, and the constant monitoring of our approved issuer list is fundamental to our conservative philosophy in all market cycles. We are in constant communication with our clients, regulators, fund boards and with our parent, BNY Mellon, as the market evolves to ensure we are thoughtful, thorough, and well-acquainted with every aspect of meeting our investor expectations.

You may have seen news this morning indicating that the Fund deviated from the $1.00 share price. *This is incorrect.* The fund has a stable net asset value of $1.00. We are here to answer any questions you may have.

Please reach out to your Dreyfus CIS sales representative with any questions.

**Investors should consider the investment objectives, risks, charges, and expenses of a mutual fund carefully before investing. Investors should contact a financial advisor or visit [www.dreyfus.com](http://www.dreyfus.com) to obtain a prospectus, or summary prospectus, if available, that contains this and other information about the fund, and read it carefully before investing.**

**Not FDIC-Insured | No Bank Guarantee | May Lose Value**
You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at $1.00 per share, it cannot guarantee it will do so. The fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.
